The management of the Crawford County Fair desires to extend a most hearty welcome to all exhibitors who plan to exhibit in the fair this year. Without your exhibits and the attendance of the public to see them, it would be impossible to hold this and succeeding fairs.

All livestock open to the state of Illinois except poultry and rabbits.

Everything will be done to make your visit with us a happy one.

The Fair Board, which furnishes this catalog, is especially grateful to the advertisers who have made this premium list possible. We urge the patrons of the fair to remember these advertisers when they need the services of professional men and women.

IMPORTANT NOTICE FOR LIVESTOCK EXHIBITORS

All purebred livestock that is showing in the open show must have registration papers. No one will be permitted to exhibit in the open show without registration papers. The name of the exhibitor does not have to be the name that is on the registration papers. Herdsman papers will not be accepted.

Rules and Regulations
Exhibitors

Exhibitors will please observe the following:

1. Read the list.
2. Decide on the entries to be made and make a memorandum of the articles in the same order as they are found in the list.
3. Do not ask to make entries after closing date and make your entries the week before the Fair if possible. No stalls will be reserved until paid for.
4. Entries are to be made on or before 6 p.m. Saturday, July 19, 2025. Entries can be made by calling , e-mail or by mail, to the Secretary. Tag your entries as numbered. It is the exhibitor's job to see that his exhibits are properly entered. Where an exhibitor makes a wrong entry in article or class, he loses the entry fee paid, but can make proper entry after satisfying the superintendent in charge before show takes place. All articles for exhibition must be accompanied by owner or his representative; the Fair will accept none by mail or express. You can also e-mail entries using the forms on the website, forms will also tell you cost of stall rent and number of animals entered.

A FEW RULES WORTH OBSERVING

5. If you have entries to make, attend to it at once, and when your stock or articles are entered, see that they are in readiness at the proper time and place for examination by the committee or the Judge.
6. Accept no rumor in regard to the business of exhibition. If you do not know what to do, inquire of the officer whose duty it is to tell you. One half of the disappointment and trouble at the fair is occasioned by relying on hearsay.
7. Read the rules and by example assist in enforcing them. Don't forget that mistakes will occur where thousands are congregated. The Board endeavors to do justice to all.
8. The success of the coming fair depends largely upon the manner in which the public patronizes.
9. The exhibitors will commence at 8:00 a.m. each day.
10. No disorderly conduct of any kind will be permitted. A police force, sufficient to prevent the same will be on the grounds. No smoking allowed in the amphitheater. Care will be taken to prevent accidents, but should any occur, the society will not be responsible in any case.
11. Department offices and the check room will close at 6:00 p.m. each day. Entry fees on all exhibits will be no more than 10% of the Purse offered under one Premium, no more than 75% of the smallest Premium offered.
12. Ponies and Saddle Horses Classes open to the world. Borrowing, hiring or temporarily buying animals for the purpose of strengthening the exhibits for show purposes is strictly forbidden. All articles and animals must be entered in the owner's name, vegetables and fruit by the producer, being the product of the farm or garden.
13. No persons will be allowed, under any terms, to have or consume intoxicating liquors on or near the grounds. All policemen will strictly enforce the rule.
14. The books will be open Friday, July 17, 2026, before the opening date of the fair to receive entries at the Secretary's office. All stall and pen rental must accompany application.
15. The Awarding Committee will be selected by the Board. The Superintendent of each department shall enter on the books all premiums awarded.
16. Where only one exhibit is entered in a class, the exhibit shall be declared first and paid first money.
17. All animals, except hogs and sheep, will be exhibited in the ring. The ring will be closed and no animals admitted ten minutes after the call of the Ring Marshall, unless excused by the Superintendent.
18. All premiums will be paid after 12:00 p.m., Friday, July 24, 2026.
19. All stock, except sheep and hogs, on which a premium has been awarded will be required to be in the ring on the last day of the Fair, at such time as the Board may direct, or forfeit the premium, unless excused by the Board.
20. No premium will be awarded to any animal or article unless the entry ticket is attached to it or that which contains it.
21. Any premium check not picked up Friday or Saturday will take approximately two weeks to be delivered.
22. Selling on the grounds of melons of any kind is prohibited, unless by permission of the Board.
23. The Association will use every reasonable precaution to safeguard the public, exhibitors, employees, and exhibits, but positively will not be liable for death, loss, theft, damage, or injury done to any person, animal, article, or automobile.
24. All persons are forbidden to whittle or in any way damage shade trees. Any person violating this rule will be liable to a fine of One Hundred Dollars ($100.00), together with the cost of prosecution.
25. Blue Ribbon, first premium; Red Ribbon second premium; White

Ribbon, third premium; Yellow Ribbon, fourth premium; Royal Purple, Champion.

26. The Board reserves the right to postpone the time of exhibition of any classes or articles or animals when, on account of inclement weather or any cause, they deem is advisable.
27. No stalls or pens will be permitted to be occupied until all entry fees, and pen fees have been paid.
28. Stall and pens can be secured by applying to the Superintendent of each department.
29. No person will be allowed to run an engine on the grounds without certificate satisfactory to the Board, showing him to be a practical engineer.
30. All protests must be in writing, accompanied by an affidavit setting forth the ground for protesting, Protest against exhibition of either animals or articles must be filed with the Secretary on the day of the contest. In every case of protest the parties protesting must deposit a sum of money equal to the amount of the purse. In the event of the protest being sustained, it shall be returned to the complainant, and if the protest shall not be sustained, the sum shall be forfeited to the Board.
31. No exhibitor will be allowed personally to have access to the books of the Secretary, but may on proper application, have such explanations as are necessary, made by the Secretary.
32. All Cattle, Sheep, and Hogs must be shown to receive Premium.
33. All stalls and pens must be cleaned before Premiums will be paid.
34. All cattle which are tied out will be tied at specified tie outs designated by the Superintendent.
35. **No cooking in barns.**
36. **The management reserve the right to interpret all rules, and their ruling must be abided by.**
37. The use of ATV's and Golf Carts during the fair must abide by City of Oblong regulations. Unless the vehicle has a permit, it is not permitted to leave the fairgrounds. To obtain a permit contact the City of Oblong at 206 South Range.

AWARDING COMMITTEE

Each member of the committee will report for duty to the Superintendent of the department in which he or she is to serve as soon as possible after the Fair opens.

The Superintendent shall enter on the books all premiums awarded. An expert judge will be selected by the Board for the purpose of judging.

The Superintendent shall exclude stock from competition should there be any unnecessary or embarrassing delay on the part of the exhibitor in bringing into the show ring.

In judging blooded stock, regard will be held to the purity of blood established by pedigree; size, form, action, and general characteristics of various breeds, making due allowance for age, feeding, or other circumstances.

Awarding committee in judging all young stock will be especially instructed to take into consideration the age of the animals.

Each concessionaire must confine himself to the space assigned for him. Any feature, which in the minds of the executive committee, is objectionable, may be excluded from the grounds without recourse, such as gambling, sale of whips, confetti, etc.

All concessions must close their places of business promptly at 12 o'clock p.m. Concessionaires must abide by the rules of the Society and terms of their licenses and failure to do so shall subject them to the forfeiture of their privileges and exclusion from the grounds without reimbursement.

It will be useless to write or apply for privileges of gambling devices, objectionable shows or for the sale of intoxicating liquors, or similar substitutes, or objectionable features, as the same will not be allowed to be exhibited or sold upon the Fairgrounds. Neither monstrosities nor beggars will be allowed on the grounds.

STATE OF ILLINOIS DEPARTMENT OF PUBLIC HEALTH
DIVISION OF FOODS AND DAIRIES

Recommended precautions covering the dispensing of food and drink at State and County Fairs and other public gatherings.

1. Food stands shall be located at a reasonable distance from livestock barns, animal pens and other potential fly-breeding areas.
2. Food stands shall be constructed, maintained and operated in a manner which will not attract flies. Screened enclosures and electric fans to expel flies should also be used when necessary.
3. Single service paper plates, cups and plastic or wood knives, forks and spoons are recommended, but not absolutely required, If multi-use dishes are used, approved dishwashing and sanitizing facilities must be provided and used properly in the Illinois Sanitary Food Law and Regulations. Each stand where food is handled must be provided with approved hand washing facilities, which should include in areas where water is not provided under pressure, a water container and wash basin, soap and individual towels.
4. All waste water, including dish water, shall be disposed of by placing it in the sewers. In the event sewers are not available, this water should be disposed of in a manner satisfactory to the Fair Board and the Illinois Department of Public Health.
5. No drinks, either hot or cold, may be dispensed by dipping into the liquid. Drinks may be dispensed by serving from either a bottle of a closed containers means of a faucet or tap.
6. Approved garbage containers with properly fitting covers must be used. Daily garbage and trash collections are required.
7. All foods must be kept under refrigeration, except bakery goods. a) Refrigerator means electrically operated at a temperature of 45 degrees F. or below. b) Frozen foods must be kept in a deep-freeze refrigerator at a temperature of 0 degree F. or below.
8. No cooked foods or sandwiches shall be prepared more than two hours in advance of sale and shall be kept under refrigeration.
9. No leftover cooked foods or prepared sandwiches may be sold the following day.
10. All foods shall be protected from contamination by dust, flies or public handling. Where preparation equipment such as stoves, grills, preparation tables, etc., are used in the food handling concessions immediately fronting the Midway, it will be necessary

that such food preparation areas be adequately protected by solid glass shields or other suitable materials.

11. All stands freezing dairy products must have a Certificate of Approval from the Division of Foods and Dairies for this Fair.
12. **FRANKFURTERS** or **WIENERS** shall be made of good quality meat and free from any cereal and preservatives. They cannot be used if allowed to become slimy or covered with mold.

2026 Exhibition
Livestock Health Requirements

GENERAL REQUIREMENTS

1. These Exhibition Health Requirements apply to all livestock present on County Fairgrounds, including livestock that are not entered in competitive events. Species specific information follows the general requirements.
2. Exhibitors are required to familiarize themselves with all rules applicable to their exhibits.
3. All out-of-state animals must have an entry permit. Entry permit numbers are available online at https://entrypermit.agr.illinois.gov/Login.aspx.
4. All animals, except as noted in species specific information below, shall be accompanied by a Certificate of Veterinary Inspection (CVI).
5. All animals must be officially identified.
6. All livestock shall be subject to examination upon entry to County Fairgrounds. Examination may include but is not limited to ultrasound, urine testing, blood testing, and similar actions.
7. Definitions, abbreviations, and administration:
    a. The Illinois Department of Agriculture may be referred to as "Department" or "IDOA"
    b. The Department contains a Bureau of Animal Health and Welfare, which receives all CVIs.
    c. Department or IDOA staff, as used in this document, includes all Bureaus
8. I DOA will continue to monitor state and federal trends in animal health as it relates to this document.

Any updates to these requirements will be posted on our website.

CERTIFICATE OF VETERINARY INSPECTION REQUIREMENTS

1. Certificate of Veterinary Inspection (CVI) means a legible record, made on an official form from the state of origin, containing an accurate description or identification of the animal including age, sex, breed, health status, and vaccination information.
2. The CVI must be signed, dated, and issued by a licensed and accredited veterinarian in that state.
3. Submitted CVIs must be as originally issued by the veterinarian; no CVIs with alterations, edits, or changes, will be accepted. The CVI must show that the animal meets all health requirements for the State of Illinois (species specific information noted later in this

Locally owned and operated for over 20 years

guidance)

4. CVI must show the name and address of the animal's owner or exhibitor. 5. CVI must include the animal's Animal Identification Number.
    a. Animal identification number (AIN): A numbering system for the official identification of individual animals in the United States that provides a nationally unique identification number for each animal. The AIN consists of 15 digits, with the first 3 being the country code (840 for the United States or a unique country code for any U.S. territory that has such a code and elects to use it in place of the 840 code).
6. If one CVI is used for multiple animals, each animal identification must be made on a separate line.
7. Exhibitors are strongly encouraged to obtain electronic CVIs whenever possible; IDOA is moving toward only accepting electronic CVIs.
8. Exhibitors shall make CVIs available to Department of Agriculture and County Fair staff on request.
    a. If an official electronic CVI is utilized, the exhibitor should be able to log on and show County Fair staff or Bureau of Animal Health and Welfare Personnel the completed CVI.
9. If animals are from tuberculosis accredited, brucellosis certified, pseudorabies qualified, or brucellosis validated herds, the identifying herd number(s) along with the date of the last herd test(s) shall appear on the CVI.
10. CVIs for out-of-state livestock shall be void thirty (30) days after issuance.
11. CVIs for Illinois-origin livestock shall be void ninety (90) days after issuance.

QUARANTINE AND REMOVAL

1. Quarantine shall be at the animal owner (or exhibitor) risk and expense.
2. Quarantine and removal from the Fairgrounds shall be as determined appropriate by the County Fair Veterinarian, State Veterinarian, or their designee(s).
3. Quarantine will be required until the animal has been properly treated and recovered, or the animal can be released to return to the owner's premise, both in the opinion of the County Fair Veterinarian, State Veterinarian, or their designee(s).
4. Any animal presenting with a condition that would subject it to quarantine must be withdrawn from any/all entered competitions and are not permitted to exhibit.
5. Any condition meriting quarantine may also result in required removal of the animal from the Fairgrounds, as determined appropriate by the County Fair Veterinarian, State Veterinarian, or their designee(s).
6. Conditions subject to quarantine (not an exhaustive list)
    a. Any animal showing evidence of infectious, contagious or communicable diseases shall be held in quarantine.
    b. Any livestock infected with scabies, mange, active lesions of ringworm, soremouth, or multiple warts which are easily visible without close examination
    c. Sheep and goats with caseous lymphadenitis as evidenced by draining abscesses
    d. Suspicion of or diagnosis of a foreign animal disease, emerging animal disease, or other actionable disease, animals may be subject to quarantine on the fairgrounds until such time that it is determined that the disease is no longer a threat.
7. Any Illinois cattle, bison, cervidae or goats being exhibited in non-accredited free states must be isolated from the remainder of the herd/flock upon return to Illinois and retested for tuberculosis 60-120 days post-entry back into the state.

SPECIES SPECIFIC INFORMATION AND REQUIREMENTS

The information included below for any species is in addition to the requirements noted above.
There are no additional species-specific information or requirements for llamas, pigeons, or rabbits.

CATTLE

I**dentification**:
Individual identification of each animal shall be by a USDA official

animal identification number ear tag, ("840" tag). The identification tag must be able to be read both visually and electronically.

Illinois Cattle:

- Illinois is a Bovine Brucellosis Class-Free State and an Accredited Tuberculosis-Free State. Brucellosis and Tuberculin testing are not required for Illinois cattle.
- Illinois calves under 6 months of age are not required to have a Certificate of Veterinary Inspection.

Out-of-State-Cattle:

• Brucellosis

1. Female cattle six (6) months of age and older and bulls eighteen (18) months of age and older shall be negative to an official test for brucellosis within thirty (30) days prior to entry onto the Fairgrounds, unless exempt by one (1) of the following:
    a. riginate directly from a certified brucellosis-free herd.
    b. Official vaccinates of dairy breeds under twenty (20) months of age or official vaccinates of beef breeds under twenty-four (24) months of age.
    c. Animal originated from a "Class Free" state (if entire state is so classified). d. Animal is a steer or spayed heifer.
2. The negative brucellosis test shall be conducted at a state or federal laboratory within 30 days prior to entry onto the Fairgrounds.

Tuberculosis

1. Accredited Tuberculosis Free States
    a. No tuberculin test required.
2. Non-Accredited Tuberculosis Free Areas or States (Not TB Free)
3. Cattle must originate from a herd where a complete herd test was conducted within the past year.
4. The individual animals entering Illinois must be negative to an additional tuberculin test conducted within 30 days prior to entry onto the Fairgrounds.

ALL Dairy Cattle (In-State and Out-of-State):

A rRT-PCR test for Influenza A virus (IAV) on milk from lactating dairy cattle present at county fairs shall be conducted prior to livestock arriving on the fairgrounds. The animals must be sampled no more than seven (7) days prior to the date of arrival, and a negative test record must be presented to Department staff.

SWINE

Identification:

Individual identification of each animal shall be by a USDA official animal identification number ear tag, ("840" tag). The identification tag must be able to be read both visually and electronically.

Illinois Swine:

Brucellosis and Pseudorabies testing are not required for Illinois swine.

Out-of-State Swine:

• Brucellosis

1. Breeding swine 4 months of age and older shall be negative to an official test for brucellosis within 30 days prior to entry onto the Fairgrounds unless exempt by one (1) of the following:
    a. Originate immediately and directly from a validated brucellosis-free herd. b. Originate directly from a validated brucellosis-free state.
2. Swine brucellosis tests shall be conducted at a state or federal laboratory.

• Pseudorabies

1. Swine originating from a Pseudorabies Stage IV or V state are

exempt from the pseudorabies testing requirement.
2. Swine originating from a Pseudorabies Stage III state shall be negative to an official test for pseudorabies conducted within thirty (30) days prior to entry onto the Fairgrounds or originate immediately and directly from a qualified pseudorabies negative herd.
3. Swine originating from a Pseudorabies Stage I or II state shall be negative to an official test for pseudorabies conducted within 10 days prior to entry onto the Fairgrounds.
4. Barrows and females in market classes must meet the same requirements as breeding swine.

SHEEP

Identification

- Individual identification of each animal shall be by an ear tattoo or official metal or plastic tag. A microchip ID is acceptable if the owner provides the reader.
- Ear tattoos may be used when a registration certificate, listing the tattoo number, accompanies the animal. If the tattoos are not visible, another form of official identification must be presented.
- When using ear tags, the tag must indicate the premises ID and state of origin. The tag number must be assigned by a state or APHIS representative and recorded in the Scrapie Record Database.

Market Lambs:

All market lambs must be slick shorn (show ring ready) before weigh-in so that show lamb fungus can be identified.

Scrapie:

Sheep originating from a flock that has previously been classified as either an infected or source flock can be exhibited in Illinois upon the completion of an approved flock plan.

CVI must include the flock of birth and the flock of origin, if different.

GOATS

Identification:

- Individual identification of each animal shall be by an ear tattoo or official metal or plastic tag. A microchip ID is acceptable if the owner provides the reader.
- Tattoos may be used when a registration certificate, listing the tattoo number, accompanies the animal. Ifthe tattoos are not visible, another form of official identification must be presented.
- Ears should be used for tattooing when possible. If there is no space in the ear, the flank or tail fold may be used.
- When using ear tags, the tag must indicate the premises ID and state of origin. The tag number must be assigned by a state or APHIS representative and recorded in the Scrapie Record Database.

Scrapie:

Goats originating from a herd that has previously been classified as either an infected or source herd can be exhibited in Illinois upon the completion of an approved herd plan.

CVI must include the herd of birth and the herd of origin, if different.

Out-of-State Goats:

Goats from states that are not Accredited Bovine Tuberculosis Free, must also have the following information included on their CVI:

1. That the goats originated from a herd where a complete negative herd test has been conducted within the past twelve (12) months and
2. The individual animals are negative to a tuberculin test conducted within thirty (30) days prior to entry onto the Fairgrounds.

HORSES, PONIES, MULES AND OTHER EQUIDAE

Equine Infectious Anemia
- All horses and other equidae, twelve (12) months of age and older entering the Fairgrounds, shall be accompanied by a negative test for equine infectious anemia (EIA) conducted within the last twelve (12) months.
- A copy of this test shall accompany the animal.
  - AGID (Coggins) or ELISA tests are accepted.

Illinois Equine:
A CVI is not required for Illinois equine.

Out-of-State Equine:
All horses and other equidae shall be accompanied by a CVI issued within thirty (30) days prior to entry onto the Fairgrounds.

POULTRY
1. All entries (except waterfowl, i.e., domesticated fowl that normally swim, such as ducks and geese) in a show or exhibition shall have originated from a U.S. Pullorum-Typhoid Clean or equivalent hatchery or flock OR have a negative pullorum-typhoid test within 90 days prior to exhibition.

Exhibitor shall show proper information as to name and address of owner or exhibitor, name and address of the authorized testing agent, date of the testing and the number, breed, and species of those tested.

2. Prior to being used to transport poultry to a show, all crates, boxes, containers and vehicles shall be thoroughly cleaned and disinfected.
3. Any poultry vaccinations must be performed at least 4 weeks prior to delivery to the show.
4. Upon admission to a show, all entries shall be examined by the State Veterinarian or their designee or qualified state personnel who shall also receive and examine all certificates necessary for admission of birds to a show. Birds not in show condition will be removed from exhibition and must be removed from the Fairgrounds.
5. Any fowl showing signs of illness during the Fair will be removed from the Fairgrounds.
6. All out-of-state turkeys must originate from flocks that are officially classified as U.S. Mycoplasma Gallisepticum Clean in accordance with the provisions of the National Poultry Improvement Plan or be negative to a test for Mycoplasma gallisepticum within 30 days prior to entry.

CERVIDAE: Deer, Elk, Reindeer, Caribou, Moose, Red Deer and other Related Species

Identification:
All animals shall be individually identified with an approved tag, microchip or tattoo. Elk are required to have two official/approved unique identifiers.

Illinois Cervidae:
- Chronic Wasting Disease (CWD): For cervidae moving within the State, the owner must obtain a permit issued by the Illinois Department of Agriculture prior to movement. The cervid must originate from a herd that is enrolled in the Certified Monitored Chronic Wasting Disease (CWD) Program or the Contained Monitored Chronic Wasting Disease Program. The permit shall be obtained no more than 72 hours in advance of the movement of the cervids by providing the following information:
  a) Name and complete mailing address of person exhibiting the cervids;
  b) Certified Monitored Chronic Wasting Disease or Contained Monitored Chronic Wasting Disease **Herd number;**
  c) Name and complete mailing address of location where the animals will be exhibited; d)Number of animals and unique identification of the animals.
- **Tuberculosis:** Illinois is an Accredited Tuberculosis-Free State. Tuberculin test is not required for Illinois cervidae.

Out-of-State Cervidae:
All Cervidae entering Illinois must:
1. Be in compliance with the Illinois Wildlife Code [520 ILCS 5]. For more information, contact the Illinois Department of Natural Resources at 217/782-6384.
2. Be accompanied by a permit from the Illinois Department of Agriculture
3. Have a CVI that:
   a. shows that the cervidae are free from visible evidence of any contagious, infectious or communicable disease or exposure thereto, do not originate from a CWD endemic area any county and surrounding counties where CWD has been diagnosed in the past five years);
   b. shows that the cervidae are not originating from a herd under quarantine for any contagious, infectious or communicable disease;
   c. shows that the animals originate from a herd that has been monitored for at least 5 years under a state-approved CWD certification program.
4. **Brucellosis:** Cervidae six (6) months of age and older must have a negative brucellosis card or PCFIA test within sixty (60) days prior to entry onto the Fairgrounds.
5. **Tuberculosis**
   a. Accredited Tuberculosis Free States: All cervidae twelve (12) months of age and over shall be negative to two (2) tests for bovine TB no less than ninety (90) days apart with the second test conducted within ninety (90) days prior to entry onto the Fairgrounds. These animals shall be isolated from all other members of the herd during the testing period unless they originate from an accredited, qualified or monitored herd.

1. Cervidae from an accredited herd may be moved into Illinois without further TB testing provided that a certificate stating that such cervids originated from an accredited herd accompanies them.
2. Cervidae originating from qualified or monitored herds may enter with a negative test within ninety (90) days prior to entry onto the Fairgrounds and a certificate stating that the animals originate from a monitored herd.
   b. Non-Accredited Tuberculosis Free Areas or States (Not TB Free)

1. All cervidae shall originate from a herd where a complete herd test was conducted within the past year.
2. The individual animals entering Illinois must be negative to two (2) additional TB tests conducted within 180 and 30 days prior to entry onto the Fairgrounds.

RATITES: Ostriches, Emus, Rheas, Cassowaries and Kiwis

Illinois Ratites:
There are no requirements governing the movement of ratites within Illinois.

Out-of-State Ratites:
1. Individually identified by leg band or microchip.
2. Negative test for Avian Influenza within 10 days prior to entry onto the Fairgrounds.

Judging Tuesday, July 21, 2026 after 4-H Judging
Beyond The Ring Junior Livestock Show Sanctioned Sheep classes open to ages 5-21 from age as of Jan 1 of current year

REGULATIONS GOVERNING SHEEP FOR EXHIBITION

Definition:

"Official health certificate" as referred to in these regulations shall be one issued and signed by an approved accredited veterinarian or veterinarian of the Bureau of Animal Industry. Sample in back of book.

All sheep for exhibition purposes in Illinois must be accompanied by an official health certificate showing no infectious and contagious diseases.

1. All sheep exhibited must have been born on or after Jan 1 of current year
2. All sheep must be owned by exhibitor by June 1 of current year.
3. Market class weights may be altered by superintendent to balance classes
4. All market animals will be weighed. Scales are located in 4H barn so be prepared for that.
5. Lambs must be exhibited by breed. A minimum of 5 lambs are required for a breed to have its own class. If less than 5 then will be added to an AOB class. Exhibitors must declare breed.
6. Classes should try to be equal in quantity as possible to increase fairness

All Sheep to be Registered

Miss Crawford County Queen Pageant

RULES & EXPECTATIONS

Participation in the Crawford County Fair Queen Pageant is both an honor and a responsibility. Contestants are held to high standards of conduct, appearance, and commitment. By applying, each Contestant agrees to abide by the following rules and understands that failure to do so may result in disqualification, forfeiture of entry fees and prizes, and forfeiture of all rights and benefits of a winning Contestant.

1. Residency Requirement
   Contestant must be a current resident of Crawford County, Illinois, or be enrolled in, or have graduated from, Hutsonville CUSD#1, Robinson CUSD#2, Palestine CUSD#3 or Oblong CUSD#4. Proof of residency may be requested to verify eligibility.
2. Age Requirement
   For the Miss Crawford County Fair Queen Pageant, Contestant must be at least age 16 by the date of the Pageant, and must have not reached her 22nd birthday as of January 1 immediately following the date of the Pageant.
   For the Junior Miss Crawford County Fair Queen Pageant, Contestant must be at least age 12, and no older than age 14, by September 1 immediately following the Pageant date, and cannot be entering the 9th or higher grade.
3. Marital & Parental Status
   Contestant must be unmarried, never have been married, and have no children. Contestant must not be currently pregnant and must remain unmarried and without children throughout the duration of her reign, if selected.
4. Exclusive Pageant Participation
   A Contestant entering a Crawford County Fair Queen Pageant:
   •Must not be a reigning queen in any other judged pageant.
   • May not participate in any other judged pageant during the competition or, if crowned, for the entire duration of her reign as Miss or Junior Miss Crawford County Fair Queen. *Exception for participation at the Miss Illinois County Fair Queen Pageant, only.
5. Criminal & Disciplinary Background
   Contestant must never have been convicted of any felony or misdemeanor offense. Further, Contestant must not have had a disciplinary action resulting in suspension from any school. Contestant must disclose any and all criminal and school disciplinary actions. The Pageant Director has the authority to waive the strict application of this rule for offenses that occurred in the distant past with extenuating circumstances, so long as such offense is first disclosed by the Contestant. The Pageant Director's decision is final in this regard.
6. Substance Use Policy
   Contestant must not use or consume illegal controlled substances, and must abstain from drinking alcohol, using recreational drugs, vaping, or smoking. Engaging in any of these activities at any time during the pageant season may result in immediate disqualification, and forfeiture of entry fees and prizes, as well as all rights and benefits of the Miss/Jr. Miss Crawford County Fair Queen.
7. Moral Character & Conduct
   Contestant is held to a high standard of personal behavior, as follows:
   •Must be of good moral character and must never have performed or engaged in any activity or employment considered immoral, indecent, or controversial.
   •All social media accounts (e.g., Facebook, Instagram, Twitter, Snapchat) are expected to reflect the dignity and values of the Crawford County Fair Queen Pageant. Contestant should diligently screen all new friend requests, adds and comments posted to her social media accounts, in order to adhere to this rule.
   •The Pageant Director reserves the right to review social media at

any time. Inappropriate or profane content may result in immediate disqualification.
•Reports of misconduct, bullying, or unfair behavior during pageant practices or events may lead to disqualification and loss of entry fee.
•The final adjudicator of all improper or immoral character and conduct shall be the Pageant Director.

8. Appearance Guidelines
•Piercings: Only one piercing per earlobe is permitted during pageant season. All other visible piercings (ear or body) must be removed during all pageant practices, events, and appearances.
•Tattoos: All visible tattoos must be completely covered during practices, pageant night, and official appearances.
•Alterations: If crowned, the Contestant agrees not to make changes to her appearance (including new tattoos, piercings, or hair color changes) for the duration of her reign, without prior approval by the Pageant Director.
9. Gender Eligibility
Contestant must have been born female and always identified as female.
10. Behavior at Official Events
The Contestant agrees to:
•Always behave in a respectful and professional manner.
•Be punctual, cooperative, and courteous during rehearsals, events, and appearances.
•Follow all rules and regulations of the Crawford County Fair Queen Pageant and the rules and regulations of all subsequent related events.
•Represent Crawford County and the Fair with pride and integrity.
11. Crawford County Fair Queen Pageant Format & Judging
Contestant agrees that:
•Junior Miss Contestants will be personally/privately interviewed for 3 minutes, and Miss Contestants for 4 minutes, by a panel of 3 judges. During the interview, Contestant is required to wear a long, ¾ or short sleeved, knee-length business dress, skirt suit, or jumpsuit/pantsuit with jacket, with closed-toe or strappy (secured by a strap around the back of the foot/ankle), taupe 2-inch heels, or
platforms no higher than 1 inch. No embellishments on shoes or colored shoes are allowed. Small earrings are allowed.
•Junior Miss and Miss Contestants will learn and present a dance choreographed by the Miss Crawford County Fair Queen or her representative. Contestants will be given a t-shirt and shall wear white tennis shoes and jean shorts (no shorter than fingertip length) that do not have rips, holes, patches, words, etc.
•Junior Miss Contestants will present a speech on stage, on a topic chosen by the Pageant Director, for a length of 30 seconds. Miss Contestants will present a speech on a topic of the Contestant's choice on stage with a maximum length of 60 seconds. No stories from the internet, artificial intelligence use, props, poems, singing, or rhyming is allowed during the prepared speech. During this portion of the pageant, Contestant will wear her interview outfit as described above.
•Junior Miss Contestants will work with the Pageant Director to create a unique way to present a personal talent in a coordinating outfit.
•Miss Contestants will model a one-piece, one-color swimsuit (Swimsuit must cover the hip bones in the front and completely cover Contestant's bottom in the back.) with closed-toe or strappy (secured by a strap around the back of the foot or ankle), taupe 2-inch heels, or platforms no higher than 1 inch. No embellishments on shoes or colored shoes allowed. Only stud earrings are allowed with swimsuit.
•Miss and Junior Miss Contestants will answer a pop question on stage, after modeling a floor-length evening gown. The gown must be floor length in the front and back. No high-low hems or two-piece gowns are allowed. No jumpsuits or pantsuits. Slits in gowns must be no higher than 5 inches above the top of the knee. No U-slits/rounded cut out slits allowed. No V's or necklines lower than the nipple line. Front bodice and side panels of the gown must be solid fabric – no see-through material. Color cannot be metallic or reflective. No gloves may be worn. Shoes may be any color, but they should blend in with the dress (a color matching the dress is recommended, but silver, gold, or clear may be appropriate.), 2-inch heels, or platforms no higher than 1 inch, and shoes must be appropriate for dress style. Jewelry of contestant's choice allowed (No longer than 3-inch earrings, and the jewelry should not overwhelm the Contestant).
•All wardrobe (shoes, jewelry, clothing) must be approved by the Pageant Director before the final practice.
•Renting or borrowing items to minimize costs is encouraged.
•Contestant shall wear hair and makeup in a sensible style appropriate for their attire during the interview and pageant.
•Contestant's nails may be painted and manicured to a sensible length which does not interfere with any responsibilities of the pageant.
•All clothing, jewelry, shoes, and accessories are the responsibility of the Contestant to obtain, clean, and keep safe during practices and the pageant. The Pageant Director is not responsible for any lost or broken items.
•The decision of the judges is final.
12. Photo Release & Social Media
By entering the pageant, the Contestant grants permission for the use of her name, image, and likeness in promotional materials, photos, press coverage, and social media related to the Crawford County Fair and Fair Queen Pageant. Contestant likewise agrees to refrain from posting, and refrain from allowing friends and family from posting, about official appearances and events of the Miss and Junior Miss Crawford County Fair Queen until such time as the official Crawford County Fair Queen Pageant social media accounts have posted about such official appearances and events, unless prior approval from the Pageant Director has been given.
13. Attendance & Commitment
Contestants must be available for:
•All scheduled practices and events leading up to the pageant.
•Appearances and duties during fair week.
•Additional appearances and events throughout the year, if crowned.
14. Additional Appearances & Events if Crowned, and Rules
Junior Miss Crawford County Fair Queen shall be available for and attend the following appearances and events:
•Crawford County Fair Week, AM and PM events. Speak with the Pageant Director for a list of required and optional events.
•Crawford County parades, including but not limited to: Hutsonville Riverfest (August), Flat Rock Homecoming (August), Palestine Labor Day, Robinson Heath Harvest Festival (October), Oblong Spooktacular (October), Robinson Christmas Parade (November)
•(Optional) Visiting surrounding county fair queen pageants during the term of her reign
•(Optional) Additional public appearances and community involvement as coordinated by or with the Pageant Director
•(Optional) County Fair Day at the Illinois State Fair in Springfield, IL (August 2026) - (need to know # of people attending for tickets)
•(Optional) Miss Illinois County Fair Queen Pageant as part of the Illinois Association of Agricultural Fairs (IAAF) Convention, Springfield, IL (January 2027)

Miss Crawford County Fair Queen shall be available for and attend the following appearances and events:

Raymond Richards 618-554-6419

Towing & Transporting

Towing and transporting DEMOLITION DERBY cars and trucks to and from the fairgrounds must meet highway safety codes. This includes: proper lighting controls, safety chains, tow bars, towing trailers, etc.
Running for ALL CLASSES
Safety belts, Z-90 approved helmet, goggles or face shields are mandatory.
NO deliberate hitting on the driver's door. STRICTLY ENFORCED!
Vehicles must always have dependable brakes and boundaries including loading equipment must be observed. Any car shoved or driven out of bounds may immediately be disqualified if it is a safety hazard.
NO DRINKING OF ALCOHOLIC BEVERAGES on fairgrounds will be tolerated. Any driver or pit person under the influence of alcohol or drugs will be removed from the grounds. Coolers WILL BE checked AND confiscated if any alcohol is found.
No cars are permitted in the competition area before the heat in which they are competing.
A vehicle will be disqualified if a door comes open during the heat.
A one- minute limit is enforced by the track officials for restarts and making aggressive competitive contact with another car. Simple contact does not constitute combat and could be considered sandbagging.
All cars are to be removed from the Fairgrounds following the show or they will become the property of the Fair Association and the officials will have them removed. A removal deposit may be required in some cases.
A fire extinguisher in close reach in the driver's compartment is recommended.
There will be two inspections of cars. One in the pit area before the derby beings and the second immediately before entering for the feature. Heat race winners and feature winner cars will be re-inspected. If a car is suspected of any building violations associated with their class, monies WILL NOT be given.
Additional safety regulations may be imposed depending on track conditions.

NO VEHICLES WILL BE LOADED BY TRACK EQUIPMENT BETWEEN HEATS! DO NOT ASK! This equipment is for track removal only, come prepared to have your car or truck loaded yourself. (i.e., winch, come along, Armstrong, etc.)
If cars do not have a number on them, they will NOT run. Every can needs a 20x20 roof sign!

PASSENGERS ARE NOT ALLOWED IN MINI CARS, MINI TRUCKS! ALL OTHER CLASSES MAY HAVE PASSENGERS! Passengers MUST be 16 years of age!!! NO EXCEPTIONS!! Passengers MUST sign a release form at check in. Passengers MUST show a VALID ID TO PROVE AGE OR YOU WILL NOT RIDE!! IF FOUND THAT PASSENGER IS UNDERAGE DRIVER WILL BE DISQUALIFIED NO QUESTIONS ASKED!!!
All classes can use an unlimited amount of number 9 wire double strand anywhere on the car outboard of radiator. (No number 9 wire may be used on suspension unless otherwise noted in a specific class.)
For all classes all fresh cars may have 2 plates and prerans can have 6 plates. We will determine IF they are preran or not.
If the rules say you can do it, then do it. Do not read the rules and try to interpret rules to fit your needs! JUDGES HAVE FINAL SAY! If you have questions CALL the inspectors. The driver MUST sign in before going through inspection. Once you sign in NO REFUNDS WILL BE GIVEN! You have two chances to pass inspection! After the second trip or 6:00pm you will NOT be allowed to compete, and you WILL forfeit your entry fee.

Entry Fees & Pit Passes:
Entry fee for drivers is $40 per car and $30 for passengers and $20 for pit passes.

2026 First Responders Class
Mini Truck and SUV Stock Class
As in stock these will be stock. Nothing can be touched or changed other than what is listed. No octagon frames or passengers.
1. Any tire nothing other than you may have a small 3/8" center.
2. Suspension
   Front may be solid 27" to top of bumper.
   Rear must be left stock.
3. Bumper
   May have a piece of pipe no bigger than 4" or a piece of 4x4 box.
   Can have a 6" bumper shock tube
   Must be flat no point at allMay be stubbed but must use 100% of core support mount
4. Engine
   May have lower cradle no protectors just to mount motor.
5. Battery
   Must be mounted on inside of cab.
6. Doors
   May be welded. 5 on 5 off or wired
7. Hood
   May be wired in 6 places tailgate in 4 places
8. Cage
   May have 4-point cage.
   Two front bars may be welded to the frame.
   May have a gas tank protector 30" wide max and must stay in front of wheel wells
9. May have after market steering collum and pedals
10. IF IT DOESN'T SAY YOU CAN DO IT OR SAY TO DO IT DON'T.

2026 Compact Cars
1. Front and rear wheel drive cars
2. Must be powered with 4 or 6 cylinder engines,
3. Wheelbase MUST be 108 inches on front wheel drive and 105 inch-

es on rear wheel drive. NO EXCEPTIONS!
4. No moving/bending a stock or aftermarket component to shorten wheelbase.
5. NO four-wheel drive vehicles.
6. All cars MUST have a cage! MANDATORY! Four point minimum.
7. ALL glass, side windows, rear windows, headlights, and taillights MUST be removed! Rolling windows down is not permitted. Remove all glass mirrors and plastic. Remove all decking in wagons.
8. Vehicles must be swept clean of all debris, including trunk.
9. Rear seat of the sedan MUST be removed, top and bottom. On station wagons all seats and decking must be removed. Station wagons must be emptied to floorboards.
10. No spare tires, broken glass, or trash etc., allowed in cars.
11. Cars MUST have a seat belt and working brakes! MANDATORY!!

BODY/BODY MOUNTS

1. Fenders may be bolted together with ⅜ inch bolts or smaller with ⅜ inch or smaller washers only. A maximum of 10 bolts per fender.
2. All doors may be welded (Outside of body only), chained, or wired.
   a. Straps can NOT be larger than ¼ inch thick and 4 inches wide on the door shell (vertical) and 2 inches wide on the window frame.
   b. You may beat tops of doors down and may tack weld them in three places with a maximum of 1 inch weld each.
3. NO doubling of body panels allowed; NO added metal allowed.
4. If you have rusty floorboards: you may patch but you must cut out all the rust and overlap no more than 1 inch with the same thickness as body material and sheet metal screws (NO more than 1 every 4 inches.) No welding to floorboards or the firewall.
5. You may crease/enhance sheet metal body panels but do NOT fold and weld. NO extra metal may be added.
6. NO other body welds other than what is listed above! This includes body seams anywhere on the car!
7. ALL sunroofs MUST be covered with a thin sheet of metal. Welded or bolted.
   a. If bolted; bold head must be inside of the car or riveted.
   b. NO #9 wire or chain to accomplish this will be allowed.
8. Pre-ran cars may install new front clip. Any clip may be used on any car but MUST be installed in stock manner. Officials must approve this!
9. You may have a rear window bar 2 inches by 2 inches by ¼ inches maximum in size, 6 inches maximum on roof 4 inches by 4 inches by ¼ inch flat plate to attach to this bar top and bottom and must be centered on side drip rail on trunk NO further back (2 inches on each side).
10. All body mounts bolts may be replaced with ½ inch in outside diameter bolts with a stamped washer. Do not take them out and place the body on frame.
    a. If replaced a gap of 1 inch minimum is mandatory between body and frame. You may replace with a stack of washers, or one piece of anything solid as long as it is about the same diameter as the factory bushing. Do NOT crush factory body bushings.
    b. Body mount bolts inside passenger compartment that are close together may have 1 washer 6 inches by 12 inches and must have 2 or more body mounts through washer. You may add 2 additional body mount bolts per side inside the passenger compartment. All all-thread MUST have a nut on top and bottom and NO welds.
11. A MINIMUM of one chain or wire running from the outside (top) of roof down to the cowl OR bar down to the dash bar of the cage on the front window is MANDATORY for safety.
    a. MAXIMUM of 2
    b. If using metal straps; 2 inches wide by ¼ inch thick 12 inches apart MAXIMUM. Can go to the front dash bar or cowl then to the top lip area of windshield only.
12. NO welding the K member to the body; You are allowed to remove the front body mount spacer. This is where your front all-thread would go and suck the body down to the K member.

FRAME

1. NO kickers!
2. Do NOT reweld engine cross member seams or any other brackets attached to frame or sheet metal under hood or trunk.
3. NO CONCRETE!!
4. Do NOT weld factory holes up; All factory holes must be open for inspection of the frame.
5. You can NOT alter the frame in any other way than specified in rules. Do not crease or reshape frame.
6. You may run 1 wire or chain from the frame rail to frame rail underneath the back of the car, behind the back tires/wheels.
7. You may put a bolt with a stamped flat washer through the frame to hold it together.
   a. Only 1 per wheel opening must be open during inspection. Do NOT weld the washer. (Pinning of the frame.)
8. You may notch the frame for minimal pre-bending but do NOT weld the cut.
9. If changing the front stub;
   a. Cut 3 inches behind the second cross member bolt hole. When replacing you can overlap 2 and a ½ inches to be able to weld both sides but NO adding extra metal.
   b. MUST be of the same make and model.
10. If restubbing one side of the frame;
    a. You are allowed to cut and fit the new frame flush and weld one pass all the way around (butt, fit, weld).
    b. MUST be of the same make and model.
11. All trailer hitches MUST be removed!!
12. If running a preran car;
    a. You are allowed 6 patch plates MAX; 4 inches by 4 inches by ¼ inch.
    b. Must be painted a bright color so it is easily noticeable for the inspectors.
    c. After inspection or heats NO welding these plates on! If additional plates are found after inspection or heat, NO money will be paid.
13. Fresh cars are allowed (2) 4 inch by 4 inch by ¼ inch plates to fix or patch rust holes.
    a. If needing to fix or patch rust holes on preran, refer to patch plate rule.
14. Attachment of lower sub frame to body' you can use only ⅜ inch chain or smaller. You can weld the links at each end for attachment points.
    a. Preran cars can use metal strap BUT each one counts towards/as your patch plates.

CAGE/HALO BAR

1. All driver and passenger doors may be reinforced.
2. Minimum of 4 point; 6 point recommended. Cage is MANDATORY!
3. Cross bars may be ran as follow:
   a. 1 across the dash, 1 behind front seats, and 1 in rear seat area. 3rd bar MUST stay inside the interior of the rear driver's compartment, NOTHING past the front of the package tray. NOTHING can be added to the bottom of this bar.
4. You can run 4 down tubes (2 per side). 2 of these tubes MUST be mounted in the following way on each side.
   a. (1) down tube must be to flat part of the frame no further forward than the inner front door seam with a max distance of 2 feet from the same measuring point.
   b. Lower door bars are allowed between down tubes but must be 6 inches or more above the top of the frame.
   c. NOTHING outside the drivers' compartment.

d. You can have steel plate between the cage and front doors. Must be securely fastened to the cage.
e. Front bar must be mounted no more than 2 inches below the bottom of the front window seal and be no more than 4 inches in diameter. Must have 6 inches between front bar and center of firewall on a fresh car. Front bar can NOT be attached to the firewall at any time.
f. All down tubes MUST be behind the dash bar, straight up and down and on flat part of flame. Can NOT go to body mount boxes. NO kickers to rear humps.
g. NOTHING out of the rear driver's compartment.
h. You can NOT weld anything to the front bar protruding toward the distributor protector.
g. NO grater plates, metal plates or tubing on exterior of body (driver and passenger doors).

5. Halo bars are allowed.
   a. Can be attached to the bar behind your seat or could be run to the frame, but it would then be counted as one of your down tubes.
   b. There MUST be 6 inches minimum distance (gap) from the halo bar and the top of your rear window bar. NOTHING can be attached to the halo bar.

HOODS/TRUNKS/TAILGATES

1. Hoods MUST be open at inspection! Do NOT come to the inspection line with the hood bolted down.
2. Hoods MUST have 2 holes at least 4 inches in diameter on each side of the carburetor (not directly on top of carburetor). If Hood is removed, either the fan blade must be removed, or the fan belt must be cut.
3. NO second all-thread welded to the side of the frame and ran through at the mid point of the hood.
4. On all cars; hoods, trunks and tailgates may be secured with the following method:

a. **HOOD**

i. (2) pieces of 1 inch all-thread (NO sleeving)
ii. Can have a 4 inch or less spacer free floating or welded between core support and frame with a washer no larger than 6 in outside diameter and ⅜ inch thick or you may use angle iron back to back with a bolt through it.
iii. Angle iron cannot be more than 3/16 inch thick and no longer than 6 inches. Total of 6 bolts (3 on each side of car) and 2 up front all thread holding down the hood and any amount of wire or cable.
iv. All wire or cable MUST be mounted outboard of the radiator.
v. A maximum of 20 bolts ⅜ inch or smaller are allowed to bolt together hood seams.

b. **TRUNK**

i. (4) pieces of ⅝ inch all-thread with a washer no larger than 6 inches outside diameter and ⅜ inch thick.
ii. All-thread may be mounted through the deck lid and frame anywhere in the trunk. Can be welded to the frame or in body mount holes.
iii. In addition to all-thread, you may weld the trunk 5 on 5 off. Straps should NOT be larger than ¼ inch thick or 4 inches wide or (6) 1 inch outside diameter bolts with a washer no larger than 6 inches outside diameter and ⅜ inch thick or (10) ⅜ inch bolts in the drip rail, (NOT both, one or the other) and any amount or wire or cable.
iv. If the trunk is welded, it must have a 12 inch hole in the trunk lid.
v. On station wagons, 2 pieces of 1 inch all-thread with a washer no larger than 6 inches outside diameter and ⅜ inch thick, all-thread may be used in the rear through the roof and stock body mount replacing the existing bolt.

c. **TAILGATE**

i. May weld 5 on 5 off.
ii. Straps should not be larger than ¼ inch thick or 4 inches wide

or (6) 1 inch outside diameter bolts with a washer no larger than 6 inches in outside diameter and ⅜ inch thick, and any amount of wire or cable.

iii. You can weld washers to the body to run wire through. These can be NO bigger than ⅝ inch washer and must be at least 12 inches apart.

BUMPER

1. If the OEM bumper had no bolts, homemade bumper brackets may go 6 inches from the back side of the bumper.
   a. Any OEM shock canister may be bolted or welded to any car or may have 10" 2x2x1/4" box tubing.
   b. Amounts of welds or bolts may NOT exceed typical stock installation.
   c. Homemade bumper brackets are allowed.
   d. NO gussets or bracing.
   e. NOT to extend behind OEM mounting bolt location on frame.
   f. May use 2 and a ½ inch max. round or square tubing, NO thicker than ¼ inch. NO solid stock may be used.
   g. This can only extend into 8 inches MAX. Will be drilled at 8 ¼ inches measured from the front edge of the frame.
2. Any OEM stock automobile bumper may be bolted or welded to the shock canister or bumper brackets.
   a. May use 2 pieces of light chain per shock.
3. Fenders and bumper ends may be trimmed to allow for wheel clearance.
4. Front bumper may be reinforced inside or behind and end to end.
5. Must have chrome on the outer part of the bumper from any OEM bumper shaped to fit.
   a. You may weld the outer chrome of the bumper to the inner skin of the bumper.
   b. Anything coming out of the bumper during the race will be cause for disqualification.
6. 11 inches of point and must contour from frame to frame and must be stock appearing on pointy bumpers. (curve of point must start at each frame).
7. You may have 6 inches long by 4 inches wide by ¼ inch thick bumper support bracket, butt fit against bumper and 2 inches onto bumper. If you're running a preran and choose to put your extra 4 inch by 4 inch by ¼ inch plate up front, there must be at least an ⅛ inch gap between 2 plates. Any questions, please call.
8. NO front bumper straps or all-thread to core support.

SUSPENSION

1. Stiffness of suspension will be left up to the driver. NO other metal added!
2. Homemade tie rods and homemade steering shafts are allowed.
3. NO pipe over struts.

REAR-END

1. Any automobile front wheel drive rear end can be used in any car. You may lift the rear end by shortening or lengthening rear end control arms.
2. Trailing arms may be reinforced or made out of 2x2x1/4" square tubing.
3. NO dually wheels allowed.
4. Any drive shaft/half shaft or U-joint may be used. Welding of the drive shaft is allowed.
5. NO extra metal added. Any bracket that shows reinforcement will not be allowed. Judges have the final decision.

ENGINE/TRANSMISSION

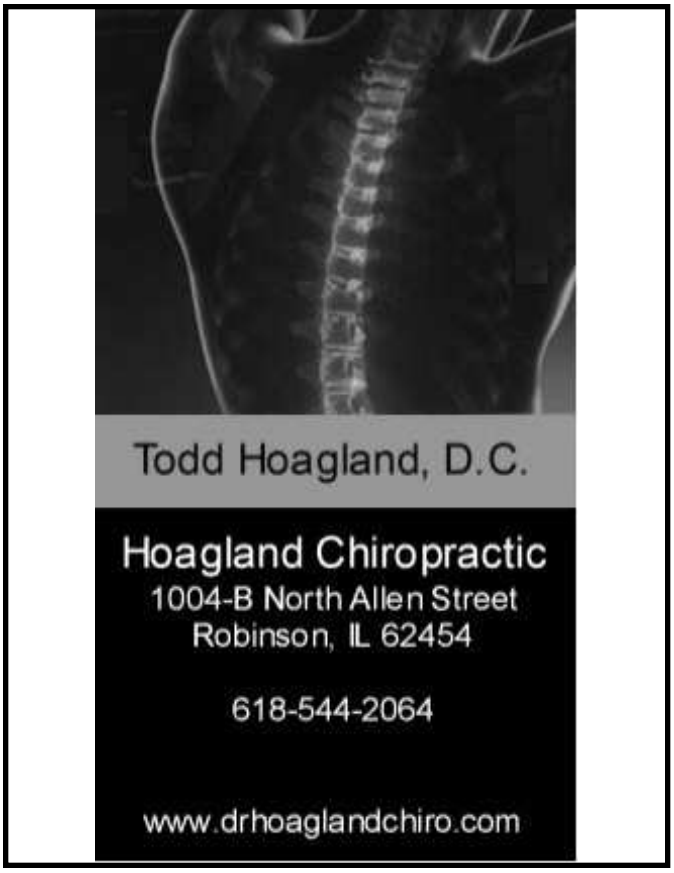

1. Any engine or transmission may be used in any front wheel drive car but MUST be mounted in stock position.
2. Chained, welded, or homemade motor mounts will be allowed but MUST meet approval of officials.
3. At motor mount to subframe your allowed 2 per side of motor mounts; 2 inches by 3 inches by ¼ inch plate on its side welded to frame and motor mount.
4. Any type of header is allowed but MUST be directed away from the driver's compartment.
5. Transmission oil coolers and engine oil coolers are allowed. Inspection personnel must approve all mounting, lines, and fittings.
6. Skid plates are allowed.
   a. Must be separate oil/transmission plates.
   b. NO full-length skid plates allowed. NO bolting or welding to frame.
7. NO aftermarket or homemade cradle, extreme cradle or pulley protectors.
8. NO carburetor protector outside the intake area or distributor protector.
9. NO aftermarket or homemade attachments to radiator, core support, or fire wall. Do NOT reinforce the firewall/cowl. Do NOT beat, paint, bolt, weld on, weld to, or modify the drivers side of the firewall/cowl in any way.

RADIATOR

1. Any type of automotive radiator may be used but must be mounted in stock position. NO reserve tanks!
2. A radiator cradle is allowed to be made of ⅛ inch metal 1 inch wider than the radiator, bolted only to the car and nothing in front of the radiator. Aftermarket or homemade radiator cradle.
3. Front radiator screen max; ⅜ inch thick, bolted or (4) 1 inch welds.

GAS TANK/BATTERY

1. Battery may be moved but MUST be securely fastened and covered in the passenger compartment.
   a. MAXIMUM of 2 automobile type batteries allowed.
   b. Battery MUST be secured and covered when coming through

inspection.
2. Stock gas tank MUST be removed. A metal boat tank or homemade metal tank must be mounted in the rear seat area and bolted down with metal straps. Any other types of installation will NOT be allowed.
   a. NO gas cans with hoses duct taped!
   b. A marine (boat) tank or an official approved homemade tank is mandatory.
   c. All tanks MUST be covered with rubber cover.
   d. All tanks MUST have a secure cap.
   e. All lines and fittings MUST be leaf proof and meet the official's approval. All lines under the car must be steel or if running rubber lines, they MUST be inside of the car.
   f. Electric fuel pumps are allowed but MUST have shut-off within reach of the driver.
   g. NO more than 10 gallons of fuel in the tank.
   h. Gas tanks must be secured when coming through inspection.

TIRES
1. Only 16 inch or smaller tires and wheels will be allowed.
2. NO split rims allowed.
3. Valve stem protectors are allowed.
4. Liquid in tires is allowed.
5. Screws in rims to hold tires in place are allowed.

THIS IS NOT A SET OF RULES BUT A SET OF GUIDELINES OF HOW TO BUILD YOUR CAR. IF IT DOESN'T SAY YOU CAN SPECIFICALLY DO SOMETHING THEN YOU CAN'T. JUDGES DECISON IS FINAL!!!

2026 Stock Half Ton Trucks
1. 2WD ½ ton trucks or SUVs only. 4WD trucks will need to remove the front drive shaft. 2wd truck cannot be converted to a 4wd front axle. 4wd front axles must remain stock ½ton and not be switched out or modified.
2. No sadagon allowed on SUV's
3. All trucks must be stripped of factory components.
4. Trucks must have a seatbelt and working brakes. MANDATORY!
5. Battery must be moved and be securely fastened and covered in the car. Max of two batteries are allowed.
6. All trucks must have a roof sign with a clear number.
7. No painting or undercoating of frame or interior (TRUCKS WILL NOT BE INSPECTED). NO grinding or buffing of frames other than where welding is listed below. If any of this is found you can enjoy the show from the stands and not the track.

GAS TANKS AND FUEL PUMPS
1. Stock gas tank MUST be removed from original position.
2. All tanks must be steel or aluminum and have a secure cap. A marine tank or fuel cell is strongly recommended. Tanks must be mounted in the backseat area or bed centered in the truck. All lines and fittings must be leak proof and meet approval of the track officials.
3. Electric fuel pumps are allowed. It must be covered with nonflammable material.
4. All lines must be run inside the truck, not along the frame underneath.

GAS TANK PROTECTOR
1. Tank protector no wider than 32" max and can't go any further than 36" past the back the cab (SUVs are no further back than 36" from rear seat bar. Gas tank/protectors must be centered between wheel wells. If mounting the gas tank directly to the floor you are allowed 4- ½" bolts with washer not to exceed 3"x3" on bottom side of floor.
2. Gas tank protector may have a halo behind the tank no higher than 4" above the tank. Gas tank protector cannot be used as a kicker and remain free floating from the bed and frame.
3. You may have 2 kickers from your rollover bar to your halo on the gas tank protector. These must go through the rear window. This is for safety only and not to be used for reinforcement.

RADIATOR AND CORESUPPORT
1. Radiator must be in stock position.
2. Any factory passenger type radiator are allowed.
3. DO NOT MOVE CORE SUPPORT.
4. Factory condenser or ⅛ expanded metal / rad guard are okay (RADIATOR GAURDS MUST REMAIN FLAT STEEL WITH NO BENDING). They can be bolted in with (4)- 3/8 bolts. These cannot be used to reinforce the core support.
5. May change Core support bolts to 1" threaded rod max. Cannot sleeve all thread. Max of 5 nuts per all thread.
6. (2) 6'x3' x ⅛ flat strap with 4 pieces of ⅜ threaded rod through the bottom of the core support to hold radiator in. Straps can be welded to the core support only and not be used to reinforce it.

BODY
1. Cannot remove body from frame. No swapping of frames, bodies or panels from different makes, models or years. No body bolts can be touched besides the ones listed below. Must have stock rubber / hockey pucks on the ones you change (NO METAL SPACERS).
2. May change 6 body mounts total that are already in a stock location to 5/8's bolts. Bolts may only be 6" long with (2) 3"x3" washers and (1) nut.
3. No body seams may be welded. If welds are found you will cut 1" around them completely out and remove weld and metal
4. No metal may be added or creased
5. No doubling of body panels allowed.
6. Rust repair in passenger compartment floor pans can be done with the same thickness metal using a 1" overlap. Patch can be welded in 1" on 1" off. If you over plate or weld you will remove entire

repair. No other plating is allowed.
7. Battery box, pedals and trans cooler cannot be oversized or cope around anything to lock them into place. A max of (4) ½" bolts with (4) 3" washers may be used in each to mount them. Bolts must be in the flat part of the floor and only go through sheet metal. If components are mount to the cage They must remain 4" off the floor and all sheet metal.
8. Doors can be wired shut in 12 locations per side of truck sheet metal to sheet metal only OR you may weld doors shut with 36" of 3" wide x ⅛" thick strap per side of truck (OUTSIDE ONLY). You can cut this up but may not exceed 36" total.
9. May have 12" of 3"x⅛" strap to connect cab and bed together per side. May cut this up how you'd like but not exceed 12". May also have (2) ¾" bolts and nuts to bolt cab and bed together sheet metal to sheet metal only using a max of (4) 6"x6"x¼" washers.
10. No pounding or body creasing allowed. No other welding than what is stated above.
11. May bolt inner and outer wheel lips together with 5- 3/8s bolts per wheel opening. Bolts must remain above wheel and follow contour of opening and be spaced no more than 6" apart and no further than 4" from the wheel well lip original location. Washer may not exceed 1-½" diameter.
12. Bed sides must remain vertical and not laid over
13. Can not remove bedsides.
14. Tailgate can be lowered a max of 6" from factory location.
15. You may choose ONE of the following options for your attachment points to fastened tailgate on. a) (8) attachment point places of #9 wire. Sheet metal to sheet metal only. 2 strands per location only. b) May weld tailgate on with 10- 3"x3"x1/8" plates. Must have a 3" gap between plates. Don't think out of the box or you will cut!!
16. You may weld washers 2 ½ O.D. Max to the sheet metal only for your #9 wire.

HOODS MUST BE OPEN AND WITH TRUCK AT INSPECTION!
1. Hoods must have two (2) holes, at least four (4) inches in diameter on each side of the carburetor. (8) ⅜ bolts total may be used to hold sheet metal together around cut outs in hood.
2. Hoods may be secured by the 2 pieces of all thread in the core support with a 5"x5" max washer to hold the hood down.
3. (4) LOCATIONS of #9 wire with 2 strands per location OR angle iron pieces 2"x2"x3" welded along the top of the hood and fender with a ½ inch bolt per location. OR you can weld the 2"x2"x3" angle to the fender under the hood and bolt through your hood using your ½ inch bolt per location. Max washer size is 3"x"3 for these locations and must be free floating.

4. You are allowed (2) locations of #9 wire from bumper to core support.

SAFETY CAGES
1. All trucks must have a safety cage and roll over bar.
2. Cage material can be no larger the 6" material.
3. A 4-point cage is required. Your cage MUST have a dash bar that cannot be any closer than 4" from fire wall and trans tunnel. Dash bar needs to be straight and not radiused.
4. Your cage MUST have a bar behind the driver's seat.
5. You MUST have (2) side bars 1 per side and they CANNOT be longer than 60'. (DRIVERSIDE ONLY YOU MAY STACK DOOR BARS BUT CAN ONLY BE THE 60"AND MUST BE 4"OFF THEF LOOR. THIS IS FOR SAFETY ONLY!!!) Door bars cannot protrude through the interior of the cab or firewall.
6. Roll over bar most weld or bolt to sheet metal only. Cannot be attached to any body mounts. Must be vertical. Can not be pitched back and used to support pillars.
7. Rollover bar can be bolted with 2"x2"x3" angle to the roof
8. All cage materials can be welded to sheet metal only.
9. (4) down bars 2"x4" max (2) per side.
10. Down bars must be vertical and can be any further forward than the front door seems and a minimum of 4" away from wheel tub. Down bars can be welded to the top side of frame only.
11. You may have a door plate outside of the car on drivers' side only.
12. All down bars / Dash bars / rear seat bars and halo must be within the 60" door bars. Not in front or behind door bars.
13. Must have 2 front windows bars made from nothing bigger than 2"x2" square tubing. Window bars can only protrude onto the roof and cowl 6" max and be bolted in. No welding them in. This is for your safety and not for reinforcement. If found to be over built you will cut.

FRAME
1. No welding or plating of frames other than what's noted!! All factory frame holes must be left open. No cold bending or tilting frames. Any reinforcement of the frame found will result in disqualification. NO fixing allowed… YOU WILL BE LOADED!
2. 2–6''x6'' 1/8 Patch Plates can be used for rust repair or your choice of placement. You cannot use as a kicker to a driveline component. Plates need to be square not a rhomboid or diamond. Whatever is cut from plates cannot be added to another location. AFTER HEATS (IF THERE IS HEATS) 4– 6'x6'x ⅛ Patch Plates your choice of placement. Plates or welds can touch or overlap. If weld is found excessive you will remove weld and frame behind it. If plate is cut off and moved 100% of that plate and weld need to be removed. Cannot cut patches and spread them open.
3. ** Unlimited #9 wire AFTER all heats**.
4. CORE SUPPORT AND CORE SUPPORT MOUNT MUST REMAIN IN FACTORY LOCATION. You may shorten front frame up to where the 1" all thread fits through the front body mount hole without modifying the hole. 5. Rear frame rails CANNOT be shortened.

STEERING AND SUSPENSION
1. All steering and suspension units must be factory OEM style only but don't have to be from the make or model you are running!! No welding, cutting, fabricating of any sort. Must bolt directly on without modification. No aftermarket parts
2. You are allowed to have an aftermarket steering column. No Hydro Steering.
3. You can weld your front suspension solid using a 2"x2"x¼" square tube to the outside of frame down to the axle/lower A-arm. Tube must be vertical and not pitched or kicked. Tube cannot go past the top of the frame or add any other metal.

Bumpers
1. Factory bumpers may be loaded. Aftermarket or built bumpers are allowed but HAVE TO replicate factory appearance. Bumper may not exceed an 8" point from the face of the bumper and must have a minimum of 32" taper. Overall height cannot exceed 8". No spears!!! Can not cut or notch out backside of bumper to overlay the frame rails.
2. Bumpers may be hardnosed to the frame. If your frame rails are C-channel you may box in the first 8" from the back of the bumper with ¼" plate. If frame rails are boxed you may have (2) 4"x8"X¼" front bumper strap on one side of the frame only. 1 per frame rail, 2 straps total. Same goes for front and rear bumper.
3. Bumpers can be no higher than 24" from the ground to the bottom of the bumper OR lower than 20" from the ground to the bottom of the bumper OR frame whichever is lowest.

ENGINE AND TRANSMISSION
1. Any engine or transmission may be used in any car, must be mounted within 4" of the original location.

2. Lower engine cradles with front plate and pulley protector are allowed. If you use a pulley protector you must remove sway bar. May also have header protectors and a halo to protect carburetor. Nothing can go past the back side of carburetor. This is to protect the carburetor only.
3. Lower cradles cannot go past the center of the engine on the sides. No higher than the valve covers.
4. Nothing can be used as a kicker from the engine to the firewall.
5. Engine must be rubber mounted. Mounts cannot exceed factory size.
6. Aftermarket gas pedals and shifters are allowed but may not reinforce the car in anyway.
7. OEM trans crossmember OR 2'x2'x¼" straight piece of square tube. Crossmembers can be welded in.
8. No trans protectors or mid plates but you can run aftermarket and bellhousing and tail shaft.

REAR END

1. Any factory ½ ton rearend is allowed up to 6 lug. No heavy half 8 lug or removing studs to make it a 6 lug. No bracing allowed. No axle savers. You may run a pinion brake.
2. Slider drive shaft is permitted.
3. Leaf springs need to remain factory ½ ton and not be built or adding leaf's!!!!!
4. You may have (4) Leaf clamps per pack. Clamps can be no bigger than 2"x6"x⅜ using (2) ½ bolts to sandwich them.
5. You may loop a single 3/8s chain around rear axle and frame to hold rearend in and in place. Chain must be straight up and down and not kicked. ONE PLACE PER SIDE. NO WELDING.

TIRES

1. Any wheel and tire combo are fine. Rims must have a tire- cannot run just a rim. NO split rims or studded tires will be allowed.

EVERYBODY NEEDS TO READ AND RE-READ THESE RULES!!

If you are found to be overbuilt for these rules, you will be given 2 options:

1. **FIX TO COMPLY WITH RULES.**
2. **LOAD AND GO HOME.**

2026 Light Weld

Frame

Bumper:

1.Bumpers Brackets- no more than one set of bumper brackets may be used. Bumper brackets may be from any car that is legal to run in your class and on only one side of the frame. Bumper brackets must be one of the following methods.
2. First Way- factory bumper bracket that is legal to a car in your class may not extend any further back than the first 14" of the frame. You can weld bumper brackets to the frame (single pass only), on one side of the frame. You can weld bumper brackets and shocks to the bumper. You can weld shocks to shock brackets. You can collapse shocks, and you can bolt the shocks to the towers with ½" bolt or less, and it must be one vertically. All brackets must touch the bumper and cannot be cut apart to lengthen. No part of the bumper bracket may extend back further than 14" from the front of the frame rail

OR

3. Second way- Instead of using bumper brackets you are allowed to use ONE 4" wide x ⅜" thick plate extending from your bumper down either a side, or the top, or bottom of the frame choose only one cannot wrap a corner with it and cannot be any longer 14". You are also allowed to wrap this strap around the front of the frame 4" to create "L" shape. This is to give you enough material to weld your bumper to the strap. Plate may be reconfigured but must stay only 4" wide max. Do not bend plate past 90 degrees when you reconfigure the plate. Plate may be welded on either side of the frame or the top or bottom, your choice. Do not abuse this rule YOU WILL CUT.

Bumpers-

1. Stock bumper- you may reinforce bumpers on the inside of the bumper all material must be inside the factory front and rear bumper skins with no alterations. You may trim bumper ends or fold them around. Welding the bumper skins (Chrome to inner line) is allowed.
2. Manufactured bumper- if you choose to manufacture a homemade bumper it must conform to the following size limits. The bumper may be built up to have a 15" point from the farthest point from the backside of the bumper to the point, however the point itself may be no more than a factory Chrysler point itself and spanning over a 36" span across the bumper. They may be 8" tall. Rear bumper must not create a ramp.
3. Bumper height not to exceed 22" to the bottom of the bumper to the ground and must be a minimum of 14" front he ground to the bottom of the bumper or frame whichever is lower. Bumpers must be in stock location and must be mounted in the same location the factory mounted the bumper. The bumper must be completely in front of the frame rails. No part of the bumper may extend back past the front most part of the frame rails.
4. Front and rear bumpers may have 4 loops of wire from radiator support/trunk lid or deck (to sheet metal only do not go around core support bolts) to bumper (not frame). These cannot be placed in front of the radiator.
5. Rear bumper brackets must follow the front bracket rule, no longer than 14" on the frame. The rear bumper bracket only, may also be on three sides of the frame on the back 4". Wagons do not weld the bumpers to the body or move the bumper to the back frame rails.

Frame Shortening and Tilting:

1. You may shorten the front frame on a FoMoCo or GM on the front frame only. You may cut the frame off flush with the front edge of the body mount hole. If it is a weld on mount leave the remaining portion of the body mount in place. If you remove the body mount completely or relocate it you will not run. 76 or older Cadillacs must measure 18 inches minimum from the front a-arm mount hole to the front edge of the frame and frame must be cut square. *80s and newer cars are allowed to cold bend in one location in the side rails only or cut factory seems apart to bend their cars down as long as no more than 12" of weld (referred to in next rule) is used to . Do not abuse this rule or you will cut. Your frame must stay in factory shape when tilting. 2003 and newer may pitch in one place in front of transmission crossmember only.

Frame Welding

1.You can weld top and bottom factory seams from the most forward part of the upper a-arm. You are allowed a total of 12" of weld behind the a-arms and the weld must be marked with fluorescent green paint. If you extend past the 12" you will cut daylight out of the frame seem to get it back to 12". If any welds are ground down to hide you will remove that frame section piece.
2. All welds on the car should not be any wider or taller than ½" max.

Rust repair-Frame- If your frame is rusted through, call for instructions on how to fix the rust hole. DO NOT FIX IT WITHOUT CALLING AND EXPECT US TO ALLOW YOU TO RUN IT. NO RESTUBBING OF ANY FRAMES, NO EXCEPTIONS. IF YOU HAVE A BENT FRAME, FIND A NEW ONE. YOU CAN NOT RESTUB IT.

Frame Shaping- NO frame shaping is allowed.

1. You may not relocate any brackets on the frame. This mainly pertains to 1972 and older Cadillacs relocation torsion bar brackets to cut frames shorter, all brackets on all cars must stay stock with no alterations

Front Suspension:

1. Tire Rods and Ball Joints- Aftermarket tie rod tubes are allowed (no "Big Chiefs") with stock size tie rod. Do not re-engineer the way the steering components mount to the frame. Only stock size car replacement ball joints and tie rod ends are allowed, no pickup or van tie rod ends. If using a weld in rind for ball joint cannot be any bigger than 2 ½" tall by 3" in diameter, do not weld to the frame only the a-arm.
2. A-Arms- A-arms may be welded nuts may not be reinforced. If welded, it may only use up to 2-2x4x1/8" thick straps per a-arm; these straps are the only way your a-arms can be welded down. This strap must weld to the a-frame and cannot extend farther forward or backward than 1" past the widest part of the a-frame. No changing or modifying the a-arm brackets. All a-arms must bolt through the factory holes like they came factory on that car. COIL SPRINGS must be factory car coil spring for a car that is permitted to run in this class.
3. Steering box- may be interchanged but must remain a stock box for a car that is legal in the class you are running. Pitman rms just remain stock or stock replacement. No hydraulic steering set-ups.
4. Idler Arm- Idler arm must remain stock or interchanged for an idler arm for that is off a car that is legal in the class you are running.
5. Hubs- must remain stock for the spindle you are using no aftermarket hubs or rotors. Brake calipers must remain stock for the stock spindles
6. Spindles- must be stock for a car that is legal for the class you are running, may add bracing no longer than ¼"x2" flat strap. Must have two separate nuts for the upper and lower ball joint. Or may run aftermarket spindles.

Rear Suspension:

1. Leaf springs must be stock and made of stock spring material with a 2" stagger and no springs can be as long as the main leaf. You can only have a total of 7 leaf springs per side no thicker than ⅜" thick and no wider than 2 ¾" wide. The main leaf must be the top spring in the spring pack and leaf springs must go down from the longest to shortest in minimum 2" stagger. You can clamp springs, 4 homemade clamps per leaf pack Homemade claps can't exceed 2x4x1/4". Eyelets must be in factory location of the car you are running. 2" positive arch one direction from center of eyelet to eyelet. Springs must be factory length of the car you're running. No short springs or longer springs. If you do one or the other, you'll have to change them out. The front and rear bracket must be a factory bracket. You must have a working shackle throughout the event. Call if you question it. No leaf conversions on a factory coil spring car.
2. You can change coil springs to a stiffer spring, you can double the rear springs (they may be tied together in no more than two spots, do not weld them together), do not put spears in sagging coil springs to get your height, do not rais the suspension any other ways except what is listed above. You can wire, or chain coil springs to rear-end and frame to prevent springs from falling out, do not go through the body as this would be another body mount.
3. You can loop or wire (1 loop of ⅜" chain or 4 loops of #9 wire) from rear end to frame in 1 spot on each side, must go around the frame, do not bolt the chain to the frame. We are going to allow you to weld the chain to the side of the frame, for your chains from the frame to the rear end, you can weld one link to the side of the frame if you choose to weld the chain instead of wrapping it around the frame. This is a standard chain link do not use long ⅜" mooring chain links
4. Or you may use 2- 1" all thread going from your rear end through the package tray to hold your rear end in. You are allowed a 4x4 washer on top of package tray. This may not go through the body.
5. Use all-thread or chain not both!!
6. Coil spring cars may have 22"x4"x1/4" hump plate centered in the hump. Must contour the arch of the hump.

Watts link conversions

1. They must bolt to the package tray with 4-½" diameter and 1-¾" bolt. No welding of the upper brackets to package tray. The upper brackets can be no thicker than ⅜" and must be at least 1" away from frame rail with am mounting plate of no bigger than 8" square. The upper trailing arms must angle off the factory mounting point on the rear end and mount to package tray in the factory mounting location of the car you are running '98-'02 fords mount the same way as '97 and older fords. Lower frame brackets may be ¼"x6"x3" box tubing 3" long welded to the side of the frame (not to top or bottom of frame in any way) where the factory brackets are located. All factory brackets must be removed from frame. No gussets may be used on these lower brackets. If you do a conversion, you must do a full conversion of the upper and lower control arm mounts. You either get the factory set up or the conversion not both.

Trailing Arms

1. You may use loaded factory trailing arms, or you can manufacture homemade trialing atoms out of 2"x3" square tubing, both styles must pivot on both ends and have rubber bushings. They must attach in stock configuration for the suspension setup you are using You may lengthen or shorten trailing arms, but rear end must remain centered in the humps.

Rear-ends:

1. Use the rear end of choice, nothing heavier than an 8-lug rear end. You can tilt rear end if you wish. Welded or posi-track highly recommended. Back braces are welcome. Braces may not extend more than 4 ½" on the outer 10" of a stock size axle tube or 10" on the remaining housing No changing out rear package trays on frame. You must use the factory brackets that came with car are running unless watts link than see the watts link rules. No relocating brackets on the frame. The rear end must all stay 1" from the frame, including package tray.

Tires:

1. Tires no bigger than 16 inches, no split rims, no studded tires. Foam filled tires are not allowed at the arena events. Doubled tires are okay. Valve stem protectors are okay. Tires may be screwed to rims. Sheel reinforcement is allowed as long as the wheel starts with a stock wheel, and the reinforcement stays within the factory bead.
2. Bead locks are allowed. They must not go past the rubber on the inside of the tire and the outside must remain inside the factory lip of the rim.
3. Solid tires are allowed.

Motor;

1. Use motor of choice, motor must be in stock location. Distributor proctors are NOT allowed. Mid plates are allowed. Lower cradles are allowed but must attached to a factory style engine mount, with rubber bushing attached to frame. The factory engine mounts are the only way of tying the motor down.
2. YOU are allowed a front lower cradle and pulley protector. Header protectors are allowed. You are allowed a 6"x6" mounting pad for your motor, this must be attached to the engine cradle only and not come in contact with the side rails at all.
3. If not running a mid plate, you may weld two straight bars (one per side) extending back off the side of your lower cradle and connect-

ing them to the steel bell or your adapter plate between the steel bell and block. These must be a max of 2x2 square tubing. This is strictly to help not break blocks. If we have felt, you have gone extreme and are using them to help strengthen the car you will cut. No repair plates may attach to these bars.

Transmission Brace and Skid Plate;

1. You may run multiple bars down or one solid plate that conforms to the transmission. If these bars or plate catch the sheet metal excessively you will be required to cut reliefs into the transmission tunnel. Your trans brace can only be 12" where it meets the transmission cross member, measured front the center of the tail shaft 6" each direction. Trans brace may be no more than 2" off the transmission housing. You are allowed to build a 90-degree angle where it meets the transmission cross member and it may be tied down with 6 inches of weld.
2. If you choose not to run a full engine cradle and transmission brace you will be allowed a kicker from the dash bar to behind the front a-arm.

Transmission Cross Member:

1. You may use a straight piece of 2x2x1/4" tubing, no contours and must be mounted in the stock location on the transmission. It must be straight from rail to rail.
2. NO HOMEMADE TRANNY CROSS MEMBERS one piece of tubing.
3. 2x2x1/4" tubing is the only crossmember you are allowed.
4. Stock crossmembers may be used. No plating or welding must remain bolted.
5. Tranny crossmembers must mount in factory location for the car only and may use (2) 2x2x1/4"x6" long angle iron to reinforce the crossmember, must be welded to the frame and crossmember. The transmission cross member must be in one piece and must be straight from side to side. The transmission crossmember and supporting angle iron cannot touch the frame extensions on the Cadillac.

Body

Body shaping:

1. Body may be shaped on the exterior sheet metal only. No body shaping inside the passenger compartment, inside the trunk, inside the engine compartment at all.

Rust repair:

1. You can patch rust holes in sheet metal with sheet metal only. Do not cut rust out, weld 1" beyond rust. You cannot overlap factory body seams. Factory body seams must be untouched.

#9 Wire:

1. You are allowed 2 spots per window (4 loops). You can weld ⅝" washer for 9 wire to run through on body. Must go from body to body or body to frame. Cannot connect to cage or driveline components but may bank off them freely.
2. You may run wire from frame rail underneath back of car, behind rear end with 4 loop of wire or 1 loop of ⅜" chain or cable. This may go around the frame, it may go through a factory frame hole, or you can weld 1-⅜" chain link to the side of the frame to run the wire through, but do not reinforced the frame with the chain link or you will cut it off. This wire may pass through the trunk floor if you choose.

Radiators:

1. For mounting radiators you may use (4) ½" all thread. This may pass through the bottom of the core support. This must not pass through the upper core support. It may be attached to a 2"x6"x ⅛" flat steel and must be welded to the core support they must be outside the fan. Only factory condenser in front of radiator or ⅛" expanded metal or guard. No wider than radiator opening may be bolted or welded with only 10" of weld total. Must only m be bolted to body with 4-⅜" bolts.

Body Mounts:

1. Body mount bolts can be replaced with ½" bolts and can only be 8" long, body mounts can be replaced with steel or washers but must be 1" thick and have the same diameter as stock spacers. Bolts may extend through the body and have up to a 4x4x1/4" washer on top, washers must be separate and cannot reinforce the frame. Bolts must be up inside of the frame with up to a 2x3x1/4" washer. If you choose to use a body mount hole for your hood ready bolt this does not have to be up inside the frame, the plate can go on the bottom side of the frame and be no larger than 3". If you choose to leave in the stock rubber pucks you must leave the metal cones inside the rubber puck. You must leave at least a ¾" space if using the factory rubber spacer. Do not devise a way that enables you to suck them down tight.
2. Radiator support mounts can be removed, and you can suck the radiator support down solid. Absolutely no body mounts may be moved or added, do not shorten the front of your car and move back past the body mount hole as your car will not run. If you have to build a core support spacer you may not weld it to the body or the frame mount. Core support spacers cannot exceed 2" square material and must stop on the bottom of the core support and top of the frame. The front frame must not be shortened so that the 1" all thread must pass through the factory stamped hole. The all thread may only be welded to the side of the frame in this location. Chrysler K-Member cannot be altered.

Hood and Front Clip:

1. Hood must have at least a 12 inch square hole cut out in case of fire. Any holes in hood may be bolted back together with ⅜" or less bolts and 1.25" diameter washer no more than a total of 12 bolt allowed to pinch the hood sheet metal back together. You may cut multiple hotels but no not exceed the 12 bolts. You are allowed 6 spots to hold the hood on (this includes your front core support all thread and hood hinges); you must have a minimum of 4 tie down spots You may have up to 1" all thread, it may go from the hood to the frame, but must go through the radiator support mounts, this may be welded to the frame after it passes through the body mount but may not be nutted underneath the mount if it is welded. All other tie down spots must be sheet metal only, and the hold down bolts cannot exceed 8" in length! All hood bolts must be placed outside the windshield bars.
2. You may have plates for hood tie down, not to exceed 5x5x1/4" square or 6"x1/4" round. Front core support cannot be moved back from its factory location. It must stay bolted to the fenders the same way that it came factory.
3. You may cut wheel wells for tire clearance. Fenders may be bolted together with (5) ⅜" bolts or less with 1.25" diameter washers. No rolling your fenders and welding them. If you wrap or fold your fenders around the front of the core support do not exceed (4) ⅜" bolts with 1.25" washers total to bolt back to the core support of fender.

Windshield Bar and Firewall:

1. Firewall- DO NOT ALTER FIREWALL!!!! Besides cutting out for the distributor.
2. Window Bar- for safety, all cars must have (2) windshield bars extending from the roof of the car to the firewall/dash straps cannot be any larger than ⅜"x3" flat strap. If and only if you remove the firewall/dash completely between the straps you can connect these 2 bars. The removed part must be completely removed and must be as wide as the vertical bars. The horizontal bars connecting the two

vertical bars cannot be any larger than ⅜”x3” straps. No more than 6” of strap material allowed on the firewall. Do not go over 6” on the roof or firewall you will cut. Window bars cannot go more than 6” past the window opening. Must be at least 14” apart at the firewall.

Doors:

1. You may weld your doors solid with nothing larger than 3”x ⅛” strap and must follow the exterior door seam. Do not overlap the strap or you will cut the strap off. You may fold tops of doors over and weld the outer skin and inner skin together, but you are not allowed to add any material. IF you choose not to weld, they must be tied shut in six locations using ½” bolts no longer than 6”, ⅜ Chain, or #9 wire. If we do not deem the car safe to compete you will add more fastening points. You are allowed to add bracing to the exterior side of the driver’s door, This bracing must not stick any further out than 2” from the door and may not have any sharp edges. You are also allied to carry the bracing up to 3” past the exterior door seam either forward or backward.

Cage:

1. All cage material must be larger than 6” od, unless specified for a specific rule. It must be a minimum of 4” off the floor everywhere except the down legs going straight down. No cage material may be within 6” of the firewall and any part of the engine or components and be minimum of 4” off the transmission tunnel which no sheet metal cannot be altered. You may weld a bar behind the seat from doorpost to doorpost, it can be an X do not connect directly to frame, and you may also have a single bar (with no extension), across your dash area to replace your dash. You may run a bar connecting the dash bar and seat bar inside of the front doors only. You may weld two down bars per side from the cage to the frame vertically or to the floor to protect batteries and your feet. These down bars must remain behind the inside door seem and may only be welded to the top side of the frame. These bars cannot exceed 2”x3”. You must have a roll loop behind the seat, which must be welded to the floor or frame and may be welded or bolted to the roof. Side bars including roll over may be a max length of 62 inches long. Side bars may be any dimension but must remain off the floor everywhere 4”, they must remain 6” away from firewall and rear sheet metal. This is for drivers’ safety, not to strengthen the car, if we feel you have pushed this, you will cut! All cage material and bars must be straight.
2. Mopar’s are allowed to run a 1” bolt with a 5” plate on both sides (frame and body) in the front most frame hole in the rear frame. You are then allowed to weld a kicker front eh door bar and weld to the top of this plate It can be a maximum of 2x3” square tubing. All mopar cage material must be 5” forward front the center of this body mount hole other than the kicker explained prior. Some mopar’s have a very tight passenger compartment and you may need to run the halo through the small back window, mainly cordoba’s, call first.

Gas Tank Protector

*1. You must run a gas tank protector. It cannot attach to anything other than your cage. It must be centered between your frame humps. It cannot exceed 30” wide. It can angle in from your roll over protection but must stay within the gas tank dimensions. It may be tight to rear sheet metal, which cannot be removed. The bracing must be 4” adobe all floor sheet metal, which cannot be removed, measured from the highest flat area of the floor in the rear seat area. Gas tanks will also follow the gas tank protector rules.

Fuel Tank, Oil Coolers, and Transmission Coolers:

*Original gas tanks must be removed. You must use a well-made fuel cell, and it must be properly secured and coerced. Only metal tanks may be used. Fuel line must be secured and fastened properly. Keep away from exhaust. Place fuel cell behind driver’s seat or in the center of the car. No other source of gas inside the car at all. Engine coolers are allowed. These coolers cannot be placed to reinforce the car. No bolts may extend through the frame to create a body mount.

Trunks

1. You may weld your trunk lid shut 5” on 5” off along the factory seam with 3”x5”x1/8” material. You can fold hoods or trunk lid over do not weld any made seem that didn’t meet up factory. Do not slide out hood or trunk forward or back, trunk must remain on hinges. Trunk lids must be stock shape but , be folded in but keep it clean. You may dish the trunk but must have (2) 6”x6” inspection holes in the trunk lids for inspection. Speaker deck must remain a minimum of 6” off the floor above the humps/package tray.
2. (2) 1” all-thread may go from the trunk lid to the frame or trunk pan, if welded to the frame it must come straight down from the trunk lid and can only be welded 4” vertically.
3. If it passes through a body mount holes you must have a 1” spacer between the body and frame.
4. GM Wagons must remove all rear decking and seat components. All other rules above must be followed.
5. Rear Window bar is allowed. No longer than 2”x2”x1/4” square tubing, or 3”x3/8” flat strap. May only be welded no more than 6” onto the trunk lid. Front seam must remain 4” Gap from gas tank protector/halo.

‘03 and Newer Rules:

1.Must use factory rack and pinion, no steering box conversions
2.Must run the factory aluminum cradles, NO added metal.
3.May use aftermarket tie rods
4.Struts, spindles, and a-arms may be switched to a direct bolt on. No cutting, welding, and fabbing to make it work. May add a strut spacer, lower spacer cannot be bigger than 2 ½” in diameter.
5.Engine mounting, you may use a cradle like Grey Area or Budde cradle or you can fab your own. Still must use a stock style rubber mount. The cradles are allowed to attach with one bolt through each aluminum tower, and factory cradle bolts can not extend more than 2” past the factory aluminum cradle bolts.
6.Watts link conversions are allowed, look in watts link conversion section above.
7.No frame seam welding
8.Must follow all other rules as well.

THIS IS NOT A SET OF RULES BUT A SET OF GUIDELINES OF HOW TO BUILD YOUR CAR. IF IT DOESN’T SAY YOU CAN SPECIFICALLY DO SOMETHING THEN YOU CAN’T. JUDGES DECISION IS FINAL!!!

2026 Mod Trucks

Engines & Transmissions:

1. Any motor or transmission in any vehicle.
2. No gussets from engine cradle, bell, or transmission brace to the frame other than the engine crossmember.
3. Skid plates allowed but can’t extend more than a ½” from the pan they are protecting.
4. Slider shafts are allowed.
5. No rear ends bigger than a 3500 series pickup. If running a dually rear end you may only run one wheel per side.

NO KICKERS AT ALL!!

Frames:

1. No pinning, plating, filling, stuffing, or painting;
2. Frame may be seam welded. Single pass only.

3. Pre-rans are allowed 6 plates total. Plates are only allowed on a visible bend and cannot be bigger than 4”x8” max with ½” gap between welds.

Cage:
1 4-point cage allowed and highly recommended.

Fuel Tank Protector:
1. Gas tank protectors allowed and is not to extend more than 36 inches from the front of the bed but can be full width of the bed.

Suspension:
1. Front suspensions may be converted from coil spring design to leaf spring design. Keep the leaf springs mounts minimal. Do not use them to strengthen the frame.
2. Tie rods can be welded up 1"x1"x1/4" Angle to tube of tie rod ONLY
3. You may add 2 clamps in front of the axle and 3 behind the axle. Max of 2 bolts per clamp. Bolts can’t be bigger than 3/8” and clamps can only be 2” wide. No duct tape or welding on the springs.
4. Aftermarket steering shafts are allowed.
5. Solid front suspensions are allowed but do not use this to strengthen the frame or you will need to cut it in order to run.

Bumper/Bumper Mounting:
1. Homemade pointy bumpers must have a tapered point that closely resembles a Chrysler pointy bumper. No bigger than 13” point.
2. Bumpers may be plated on the inside and on the backing of the bumper. No sharp edges.
3. Any front bumper bracket may be used on any truck. If you choose to, you may make your shocks out of 2”x2” tubing.
4. Absolutely no bracket or shock may be welded past 6 inches behind the factory core support mount hole on the frame rail. If your trucks factory shock or bracket goes farther than 6 inches back, it must remain completely factory beyond the allotted 6 inches.
5. Bumper height is a maximum of 29 inches to the bottom of the front bumper and a minimum of 18 inches to the bottom of the rear bumper.

Cabs:
1. May be bolted to the bed with two bolts per side and may also be welded to bed sides.

Body
1. Doors may be welded solid and cab can be welded to bed. (Please do both!!!)
2. All body bolts can be replaced and bolted solid with no bolts bigger than ¾”. The only exception is you may use 1” all thread in the core support and run it up through the hood. 4”x4” maximum body mount washer size.
3. In addition to the 2 pieces of all thread in the core support, you will be allowed 4 more bolts to hold the hood down. Must be body to body only and the washers must not exceed 4”x4”. Or you may use double stranded #9 wire in 8 spots. It must be body to body only.
4. You may also run double stranded #9 wire from the front bumper to the hood or core support in 4 places only.
5. No more than 10 3/8” bolts to hold your outer hood skin to your inner hood skin.
6. Tailgates may be welded solid. You can add 6 all threads to the tailgate and bed to help hold it in place, 1” diameter all thread maximums.
7. You may fold bedsides over from the wheel wells back and tailgate may be folded over
8. If you choose to “tuck” a suburban or other long roof vehicle you may only attach the roof to quarter panels with 8 spots of double stranded 9 wire. Body to body only!!
9. Ten 3/8” bolts per wheel well. Hardware washers only.
10. For any rust repairs on the body or frame you must contact Rodney Shook at 618-421-2938 BEFORE repairing or you will cut!

2026 Bonestock/Powderpuff
Ages 14 and up with parental consent. Parents/Legal Adult must sign for any kid under the age of 18.

Body:
1. No sedagons, May crease front fenders and rear quarter panels, ZERO frame shaping, forming, or folding. Deck and Hood must be 100% in stock location and open for inspection. Trunks may be tucked with a 90-degree bend, NO dishing.
2. Wagons ONLY if you remove your tail gate may have 6 places of wire, 2 strands max must be behind the axle sheet metal to sheet metal only roof to floor.
3. Anything can be removed; NOTHING can be added. ALL cars competing must have a hood on at all times to run.
4. Fasten trunks, hood, tail gates in 6 places, 2 strands of 9# wire (Sheet metal to sheet metal only) or 6 locations using ½” bolts with store bought washers through the drip rail in the trunk. You may also use angle no longer than 2” long and a single ½” bolt to hold hoods shut. Trunk may have 2 locations of 5/8” threaded rod welded to the side of the frame, 4” on each side. 1 (3x3) washer and 1 nut per threaded rod.
5. Door seams may have no more than 6” of weld, vertical seam only. Drivers’ door may be welded 12 inches total on vertical seams only. 2”x ¼” strap.

Body Mounts:
1. You may have up to a 6” core support spacer (it may not be welded if it’s metal).
2. If you choose to change your core support mounts with 2 of your threaded rods, you get 3 plates, ¼” x 5” x 5” max, 7, up to 5/8” nuts, 7, 3” or max 1/8” thick washers per threaded rod CORE SUPPORT ONLY
3. Body mounts can be replaced with a maximum size of ½” bolt or threaded rod. Must maintain a 1” gap between body and frame. (ex. Hockey puck or 1” steel spacer)
4. No attaching body bolts to any part of the cage/roll over bar.

Frames:
1. No painting or undercoating.
2. You may dimple your rear frame rails only to achieve the frame to roll.
3. NO welding, bolting, wiring or adding any material/substance to strengthen frames. At Inspectors discretion frames will be drilled, wire wheeled or wiped down. Absolutely NO painting or spraying any material on frames or welds. Cars will not be inspected.

Suspension & Steering:
1. You may weld 2 straps per upper A-Arm, 2” by 2” to maintain ride height.
2. You may change coil springs to a stiffer OEM passenger car spring.
3. You may use store bought spring spacers (no homemade spacers or spacers on top of the springs.)
4. You may use a single strand of #9 wire to hold coil spring to rear end. Leaf spring cars may use 4 single strands of #9 wire as leaf clamps per spring stack.
5. All suspension and steering must remain stock (unless a modification is stated).
6. Aftermarket steering columns and shafts are allowed. These components may not strength car in any way at any time.
7. Tie rod sleeve can be reinforced where you may run aftermarket tie

BECK'S
HYBRIDS
3 M Farms
11969 N 150th St
Oblong, Ill. 62449
618-592-4101

rods with OEM style tie rod ends. Tie rod ends must fit without reaming any holes.

8. Upper A arms may be interchanged if they are able to be bolted on. You may cut/trim to make fit but no welding on brackets etc. The A-arm must bolt on factory brackets of frames, no drilling new holes or enlarging existing holes. Example: 80-91 box ford a-arms being installed on a 98-02. Cut the mounting bar out and trim the edges of the a-arms to get height.
9. Rear control arms may be changed but must be stock. You may shorten but max 2" overlap.
10. 98 up watt links conversion will be allowed only in the following way!! Upper trailing arm brackets must be bolted in. They must be 2 separate brackets, may not be larger than 6" x 12" x3/8" thick max. 4, 5/8" bolts, nuts and 8 washers per bracket. Brackets may only be bolted to tow package and bolts may not stick through the body. Brackets may not strength frame or body. NO WELDING AT ALL OF UPPER BRACKETS.
11. 98 up watt links LOWER BRACKET Conversion. Only 1 wat will be allowed to mount lower trailing arm bracket. 1 piece of square tube 3" x 3" x3/8" x 3" long max per side of the frame may be used. Cut the square tube to make a C channel. It must be welded to the inboard of the frame at the point you want your trailing arm mounted. Drill your hole through the tube and only 1 thickness of the frame. Bolt your arm into place. No other bolts will be allowed to mount this bracket. No factory mounting brackets will be allowed to mount the trailing arms.

Engines & Transmissions:

1. ANY drive train & transmission (manual transmissions allowed, may have steel bell and tail, no trans brace, no mid plates, OEM transmission case only). May have (2) 1" wide straps maximum ½" thick connected to the topside of the transmission for added protection. There is to be NO added bracing or protection to the bottom side of the transmission.
2. You may run a basic front plate and lower engine cradle with pulley protector, but it must be mounted to the car with OEM style mounts.
3. No engine chains, unless approved with pictures.

Rear Axle:

1. Any axle but it must be hung with factory type control arms. Must use factory trailing arms. Only modifications 2" overlap to adjust pinion angle.
2. Rear end brace will be allowed.
3. Pinion brake is ok.
4. You may run 3/8" chain around rear end back to the frame with only each end of the chain welded back to the frame for ride height control Any extra chain links or weld on the frame will cause you to run working suspension.

Drivers Compartment:

1. 4-point square cage only. 4 down tubes. 2 front down tubes can be attached to the topside of frame only no further forward than the dash bar. 2 rear down tubes are to sheet metal ONLY. Max 60" cage over all measurement. 6" max, must be mounted horizontally and 6" off the floor. Gussets only in the interior of the 4-point cage.
2. Gas tank protectors may be a maximum of 32" wide and must maintain a 1" gap away from the package tray. Maximum tubing size 2"x6".
3. Gas tank protector cannot be attached to the floor. It must be free

floating.
4. A Halo bar is allowed. Allowed 2, ½" bolts with ½" washers to attach to the roof. The halo bar may only be attached to the back seat bar or side bar, not to the floor.
5. Driver and passenger door may be reinforced either on the inside or outside not both.
6. Gas tank and batteries must be moved and secured. Tank behind the seat, Battery centered int eh passenger front floor.
7. Nothing may be mounted in a way that strengthens the car.
8. Trans coolers allowed. Must be mounted inside the 4-point cage area or the cage. Must be tight to the cage if mounted on the back bar.

Bumpers:
1. You may hardnose front and rear bumpers if desired, but no shortening the rear frame. Follow the rules below if using a shock.
2. You may weld on any DI approved bumper (see below). Bumper brackets (in factory location) may be welded continuously to the frame 4" from the back of bumper only. In addition, you may put 4, 1" welds on the back side of the bumper brackets or weld shock inside frame (example Crown Vics).
3. You may shorten 80 and newer Fords up to an inch in front of the core support mount you may also be hard-nosed.
4. Call with special cars to mount bumper legally. Rear brackets on rear and front brackets on the front, or you may chain, 2 pieces of chain per side. Bolted from mount to mount to hold on the bumper.
5. Bumper height must be 16" to 22" measured to the bottom of the frame at the back and front body mount location.
6. Bumper may not exceed 9" x 9". BUMPERS are interchangeable for all cars. IF you start with a stock/replacement bumper you are allowed to re-enforce the inside of the bumper.
7. Bumper must appear stock from the stands with no spike or protruding items.
8. If your bumper will not fit in a factory skin, it is too big.
9. You may weld the outer chrome skin to the bumper inner frame. Bumpers may be cut to keep them out of the tires/no sharp ends. Bumpers may be flipped upside down.

Tires & Brakes:
1. No tires taller than 30". 4 wheels max per car. No dual tires. No split rims, studded tires or 100% solid wheels, you may use aftermarket center with various bolt patterns, solid centers are fine Welds must be approved by judges on the rear tires. Stay off the area of the rim the tube touches, except to weld your center into the rim.
2. Valve stern protectors allowed. Valve stem protectors may not extend more than 6" from the valve stem. Not allowed to be a rim protector. Inner bead locks must not extend past the stock tire bead area. Not to exceed 2" wide. 1' outer lip ring allowed on the outside bead.
3. Doubled or foam filled tires allowed. All cars must be able to demonstrate the ability to stop at any time. If your brakes do not work, you will not compete.
4. You may not change tires after inspection. Ride height will be measured with your competition tires only.

2003 & Newer
1. You may use a topside only crossmember no more than ¼" thick. May ONLY bolt to the four factory bolts that hold the aluminum crossmember in. No welding allowed anywhere. All steering and suspensions must follow the same rules as above in the steering and suspension section.
2. You may use 2x2x1/4" 6" long box tubing or use a 1980's Ford Crown Vic shock tube. It may be welded solid to the bumper and ONLY welded to the frame continuously 4" on the frame top and bottom. You may also put 4 total 1" spot welds on the top and bottom of the shock tube where you can choose. No other bolts, chains or wire will be permitted, factory crust zones must remain open.

2026 Mini Trucks, SUVs & Vans
1. A cage is mandatory, and a halo bar is recommended. If there are more than 15 trucks, we MAY run heats!!! The 99 to 03 Durango will be allowed to run with mini trucks. NO 1/2 ton frames and no Octagon frames!!

Pre-Ran:
1. Re-stubbing at the transmission crossmember ONLY and may ONLY be butt welded with NO added metal. Four additional plates, 4"x6"x ¼" thick. You can put them anywhere you want, (on the outside of the frame), ½" gap between welds on plates and shock tubes. You can stub with a factory leaf spring or coil spring stub. Mini's must use a compact truck stub.

Engines and Transmission:
1. No gussets from engine cradle, bell, or transmission brace to the frame other than engine crossmember. Transmission crossmember can be no bigger than 2"x2"x1/4" round or square. Transmission crossmember can be welded solid to rails or can have one piece of angle iron 2"x6"x1/4" per rail. No gussets form crossmember to frame!
2. NO KICKERS AT ALL!!! Mini Trucks & Vans may only be four- or six-cylinder engines!!

Radiator:
1. No homemade radiators. Radiator protector can be wire mesh ¼" thick fastened with 3/8" bolts to core support in four places TOTAL and cannot be welded. You may run manufactured radiator guards such as Nir or ski inc.

Rust Repair:
1. For any rust repairs on body or frame contact Rodney shook at 618-421-2938 BEFORE repairing or you will cut!

Hump Plates:
1. You can have hump plates on a coil spring rear end. Plates can be 22" long 6" tall and 3/8" thick. Plates must be centered in the hump; however, they do not have to follow the contour of the hump but must be

on the outboard side of the frame.

Frames:
1. WHAT IS NOT ALLOWED: NO FRAME SHAPING, NO PINNING FRAME, AND NO PAINTING FRAME!
2. WHAT IS ALLOWED: You can weld the top and bottom frame seams from firewall forward. Pass may not be any larger than ½" wide. DO NOT reweld the upper or lower a-arm brackets when welding the frame seams. Frame may be shortened but must be able to utilize the factory core support mount in the factory location. Crossmembers can be plated TOP side only, 3/8" max. Plates may not extend up on the frame rails. You can have 2, 4x6x1/4" thick plates (one per frame rail) on a fresh truck and must have ½" gap between welds on plates and shock tubes. You cannot put leaf springs under a coil spring frame or coils under a leaf frame. Mini Trucks MUST BE on a MINI Frame. Body and frame must be Ford on Ford, Chevy on Chevy, and so on.
3. You may pitch any year of car in 1 of 3 locations:
4. 1st Location: Crush boxes: cutting the 3 flaps, and rewelding only where flaps were cut with ½" wide pass max.
5. 2nd Location: Transmission crossmember: no added material or fillers to weld the frame together where pitched. 1 pass weld ½" wide.
6. 3rd Location: in front of the firewall, you can cut a v out of the bot-

tom of the frame. Single bead to weld it back together. No added material to weld it together.

Cage:

1. Door bars may extend from the firewall to rear wheel well; they may be running inside the doors to allow more room in drivers compartment. Door bars must remain a minimum of 1' off the floor of trucks! More than 1 door bar will be allowed per side. Only one of the door bars will be allowed to run in the rear wheel well. The second door bar will only be allowed no further than 6" past the rear seam of front door. Dash bar may be no larger than 4x4 and must remain 4" away from firewall. The rear spreader bar may be no larger than 4" and may not be any further than 6" behind the driver's seat. All cage components must be a minimum of 4" off the floor, EXCEPT down bars and side door bars. You will be allowed 4 down bars. Down bars may not be any larger than 2x6x1/4" and must be welded to the door bars. The down bars must remain vertical and cannot extend higher than the door bar UNLESS being used as a rollover bar. These bars may be welded to the frame. They cannot cover any body mounts. You may plate the inside of the driver and passenger door with material NO thicker than ¼". No cage components may be welded to the frame except down bars mentioned above. The front two down bars cannot go past the firewall. Rollover bars must be attached to the 4-point cage, must be vertical and cannot be angled forward or backwards. Rollovers may also be bolted to roof with 5/8 bolts or smaller.

Fuel Tank:

1. Metal fuel tanks only! No plastic tanks! No exceptions! Your gas tank MUST be mounted inside the gas tank protector. If you are using an electric fuel pump you MUST have a lighted switch. NO exceptions! Fuel leaks of ANY kind will not be allowed or tolerated!!Make sure your tank, tank fittings, and fuel lines are snug and secure. Absolutely NO ratchet straps to hold the tank down. Tank MUST be bolted or chained, or you will NOT participate!!!

Fuel Tank Protector:

1. The gas tank protector can be as wide as the inside of the bed and MUST stop at the front of the wheel wells in the bed. It can be bolted or welded to the frame in two spots total. In front of wheel wells all cage material must be infront of the wheel wells.

Battery Boxes:

1. Two automotive batteries can be used but must be secured and covered inside the driver's compartment of the truck.

Core Support:

1. Core support cannot be moved from the factory location. It must stay bolted to fenders in the same way it came from the factory. You may replace core support bolts with 5/16" bolts and washers but only using the number of bolts it had from the factory. Your core support spacers may be NO larger than 3x3 square tubing ¼" thick. Tubing may pass through the core support. It may run from the top side of the core support. 1" all thread may be used for the core support body mount and may be welded to the frame or back of the bumper.

A-Arms:

1. You can use two straps of 2"x6"x1/4" per A-Arm. Must go from the top A-Arm to the spring pocket ONLY! You cannot have kickers to the frame behind the A-Arms!

Steering Components:

1. You may use aftermarket spindles, ball joints, tie rods, drag link, and steering columns. Hydraulic steering is allowed.

Leaf Spring Front End:

1. You can have a piece of 2"x3"x ¼" thick tubing from the axle to the side of the frame and only a 2' weld on the front and back side of the tubing to the frame. (This is your A-Arm strap.)

Rear End:

1. Any rear end 8-lug may be used and can only be chained in two places. May have 2, (one per frame rail) no bigger than 2 ½" x 2 ½" box tubing or pipe. Frame to rear end can be welded.

Rear Suspension:

1. Factory leaf spring trucks & SUV's, the leaf springs must be stock and made of stock leaf spring material. You may only have a total of 9 leafs per side and no thicker than 3/8" thick. You are allowed 6 clamps per side with only 4 of the clamps being homemade. Homemade clamps cannot exceed 2"x 2"x ¼". Factory coil spring trucks & SUV's, you can change springs to a stiffer spring to achieve desired height. Do not raise suspension in any other way. You can chain, bolt, or wire the coil springs to the rear end to prevent the spring from falling out. The control arms can be reinforced or replaced with tubing no larger than 3"x3" square tubing. Watts link conversion kits are allowed made with material no thicker than ¼". Cannot wrap leaf springs in duct tape.
2. NO HOMEMADE LEAF SPRING HANGERS! MUST BE FACTORY HANGERS! (THEY CAN BE WELDED TO THE FRAME.)

Front Bumpers:

1. Front bumpers can be homemade. On a homemade "pointy" bumper the point may be no longer than 13" from the back of the bumper to the front of the point and no more than 8" tall. Point must be contoured from frame rails. The bumper height maximum is 29" to the top of the bumper. No wedges, officials will have final say.
2. FIRST OPTION FOR MOUNTING BUMPER: You may use the original shock tube. It may be welded to the frame. May only be welded 10".
3. SECOND OPTION FOR MOUNTING BUMPER: You can have a shock tube 10" long, 3x3x1/4" thick from bumper back welded to frame.

Cabs:

1. May be bolted to the bed with two bolts per side and may also be welded to bed sides.

Hoods:

1. You can use 6 pieces of ¾" all thread to bolt the hood down. This does not include the All thread that runs through the core support. You may use no more than 20 bolts in the hood no bigger than 3/8" diameter to hold sheet metal of the hood together.
2. HOODS MUST GO THROUGH INSPECTION WITH THE CAR AND MUST BE UNFASTED AND READY TO INSPECT!!!

Fenders:

1. You may use 10 bolts 3/8" in diameter per wheel on front and back. No skinning or added support of any kind allowed.

Doors:

1. Doors can be welded solid all the way around with no bigger and 4"x ¼" from sheet metal to sheet metal. Front doors may be plated inside and out. If door is plated on the outside, door seam to door seam only ¼" thick. If the door is plated inside, it may go from the sidebar to sheet metal only and no wider than the door seams.

Window Bars:

1. Front Window: For safety, all cars must have 2 window bars

extending from the roof to the firewall. The strap cannot be any larger than 3/8”x 3” flat strap and must be at least 14” apart at the firewall. These straps must not come in contact with the dash bar or rollover bar in any way. These straps cannot be connected in any way unless your firewall is cut out.
2. Rear Window: Can have a mesh guard behind the driver’s head.

Body Shaping:
1. You may only crease/shape front fenders and rear quarter panels.

Body Mounts:
1. Maximum of 1” All thread/bolts are allowed for body mounts. Plates for the body mounts may be no larger than 4”x 4”x ¼” plates. 1 extra body per rail is allowed inside the driver’s compartment of the car.

Tailgate:
1. May be welded standing up or laying down. (LEAVE INSPECTION HOLE IN THE TAILGATE) You can add 6 all threads to the tailgate and bed to help hold it in place, 1” diameter all thread maximums. The washer can be no bigger than 4x4x1/4” thick (tailgate plates).

Rear Bumpers:
1. Back bumpers can be homemade. No bigger than 6x6 square tubing, rectangle, or pipe. If you are using tubing for the bumper, it must be STRAIGHT WITH NO POINT!!! Rear bumper height minimum is 13” from the ground to the bottom of the frame or bumper. Will be measured from whichever is closest to the ground.
2. FIRST OPTION FOR MOUNTING BUMPER: You may use the original shock tube. It may be welded to the frame and the length of the shock tube.
3. SECOND OPTION FOR MOUNTING BUMPER: you can have a shock tube 10” long, 3x3x1/4” thick, from the bumper back, welded to the frame.

Tires:
1. Any 19.5” tire or smaller may be used. No studs in the tires. No wheel weights and no split rims AT ALL!!!

2026
LAWNMOWER DEMOLITION

DERBY

RULES & REGULATIONS

STOCK MOWERS
MOD MOWERS

(Payout will BE 100% PAYBACK)

TRACK RULES
1. Drivers must be over the age of 13. Drivers under 18 must have their parent/guardian present at sign in.
2. No laying on or across the hood trying to repair or start mowers while on the track.
3. Track will be wet!
4. A mower is out on its second rollover, catches fire, or touches any other driver or mower.
5. NO ONE is allowed to leave their mower UNLESS an emergency occurs or is permitted by an official.
6. If your mower dies, you will have 60 seconds to restart and make contact. This is also at the official’s discretion! Put on a show and we may give you more time. Sandbag or Gangbang and time will be less.
7. Under RED FLAG conditions all activity ceases until and official waves the GREEN FLAG to restart. Only one warning anymore and you will be disqualified.
8. The Head Official has the right to disqualify ANY mower for safety concerns.
9. Any driver or crew member disobeying the rules will cause his or her vehicle to be disqualified.

Drivers are responsible for the actions of their crew.

10. There will be a 15-minute time limit on each heat. If no winner by then 1st place will go to the hardest hitter.

2026 Stock Mower Rules

Frame:
1. 4, 4x4 plates ¼” thick.
2. Plates can run concurrently.
3. 4” bumper mounts (tubing, flat metal doesn’t matter your choice but only get the 4”.
4. 12”x12” engine plate 1/8” thick max
5. Craftsman’s can close exhaust hole 1/8” max material and there must be a gap between engine plate.
6. 2-1” all thread in front to hold the hood.
7. Your allowed 4” of tubing to help mount all thread.
8. All thread can have metal between them 4” wide max.
9. Bumper no taller than 6” and no wider than the outside of the wheels and can run a point but no bigger than 6”out.
10. No kickers/bars going from the front bumper to the cage.

Cage:
1. Any metal of choice,
2. 3 Points of contact per side.
3. You can run a safety loop behind the fenders and cage and can bolt it to the fenders.
4. We are running points so protect your legs!

Body:
1. Any body of choice.
2. Must have a factory hood and fenders.
3. Back of the hood can mount in any way just don’t go excessive with it.
4. Seam welding of the hood is ok.
5. No Seam welding of the dash to the frame.

Drive Train:
1. Any ¾ rear axle.
2. Any pulleys.

3. Motors must be 25hp or less.
4. Building motors is allowed but must start with 25hp or less.
5. Any tires and wheels. No bead locks.
6. Headers are allowed. They must point in an upright position.

Safety Rules
1. Driver must wear shirt, long pants, and closed toe shoes while on the track.
2. Helmets must be worn at all times while on the track.
3. Drivers must be over the age of 13. Drivers under the age of 18 must have parent/guardian present during registration.
4. Age verification is required. (driver's license, state ID, Birth Certificate, etc.).

2026 Mod Mower Rules

Safety Rules
1. Driver must wear shirt, long pants, and closed toe shoes while on the track.
2. Helmets must be worn at all times while on the track.
3. Drivers under the age of 18 must have parent/guardian present during registration.
4. Age verification is required. (driver's License, State ID, Birth Certificate, etc.).

Mower Rules
1. Only front engine riding mowers allowed. Must be belt driven.
2. NO ZERO TURN MOWERS ALLOWED.
3. Max of 25HP. Vertical shaft ONLY.
4. Seats must be secure.
5. Mower decks must be removed.
6. Mowers must have adequate leg protection.
7. No "jagged" bumpers allowed. Pointy bumpers will be allowed. No bigger than 8" point and no wider than the wheels.
8. No lawn tractors.
9. Spark plug and carburetor guards are allowed.
10. Must have a flywheel cover or metal hood. No plastic grills.
11. Battery and fuel tank CANNOT be in front of the motor and MUST be secured properly.
12. Wheels no smaller than 6".
13. Wheels must be open to hits. No dual rear wheels, wheel covers, wheel weights or tire chains.
14. Pully swapping is allowed and highly encouraged!

2026 POWER WHEELS DERBY RULES

Power Wheel Demo Regulations
1. Two age groups- 3,4,5 and 6,7,8
2. Entries start at 5pm, derby scheduled for 6:00pm
3. Any regular electric Power Wheel is allowed. No 4-wheeler or tractor type vehicle allowed.

* Childs legs must be in the compartment. Ride in NOT ride on!

4. No more than 12-volt system NO CAR BATTERY
5. Helmets must be worn; a bike helmet is ok.
6. NO PASSENGERS
7. Motors must be stock. No modifications to make the car run faster than stock.
8. All doors and tailgates must be strapped shut. No sharp edges. Use zip ties or duct tape.
9. No foam, water, screw, chains, or self-tapers in the tires. Stock tires only.
10. Decorative changes may be made to make the Power Wheel more like a derby car, but no reinforcement can be made to it.
11. Must have a seat belt!
12. No entry fees!
13. ONE PARENT ONLY will be allowed on the track per child during the event.
14. Balloons will be attached by us! The object is to pop the balloons.

* The last one with the balloon is the winner.

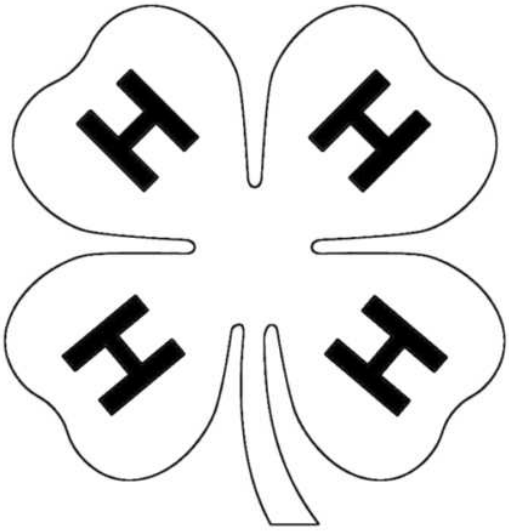

15. Each of the heats will be given a time limit. If at the end of the heat, there is more than one contestant with an un-popped balloon; the heat will be declared as a tie.
16. If a child gets out of the power wheel at any time of the event, that child is out of the event. If the vehicle has more than one speed, low speed must be used.

REMEMBER: This is for the kids! Do not add something that could cause them not to be able to run! This is for fun, Teach them good sportsmanship!!

4-H SHOW SCHEDULE
CHECK OUT THE CRAWFORD COUNTY
FOR ADDITIONAL 4-H INFORMATION.
HTTP://WEB.EXTENSION.ILLINOIS.EDU/CCE/

Thursday, July 16
All General Projects Judging – Registration begins at 4:30 p.m. and Judging at 5:30 p.m.

Friday, July 17
Horse Show – 6:00p.m. – All exhibitors should be signed in by 4:30 p.m.

Sunday, July 19
Dog Show - Show ring 1:00 p.m.
Poultry Judging 3:00 p.m.

Monday, July 20
Swine Show – 9:00 a.m.
Tractor Driving 3:00 p.m.

Tuesday, July 21
Dairy Show – 7:30 a.m
Sheep Show – 9:00 a.m.
Goat Show – following the sheep show

Wednesday, July 22
Beef Show – 8:00 a.m.
Rabbit Show (Show Ring) – 11:00 am
Master Showmanship - 5:00 p.m.

Thursday, July 23
Auction Set up – 9:00 a.m.
Livestock Auction – 1:00 p.m.

Exact times and final schedule information are included in the July 4-H newsletter.

CRAWFORD COUNTY 4-H PROGRAM YEAR:
The 4-H year begins on September 1 and ends on August 31. Enrollment is open to 4-H members throughout this period. To qualify for exhibiting at the 4-H Fair, members are required to attend at least 3 club meetings and 1 county event. (Members who attend college, are required to attend one club meeting and 1 county event.)

MEMBERSHIP:

(Condensed version of rules for 4-H members in Crawford County. Additional membership rules found in Crawford County 4-H Handbook)
1. Any boy or girl, regardless of race, creed, or color, who is in the third grade or eight years of age by September 1st or who has not yet reached his/her 19th birthday on September 1 of the current 4-H year may be a member of a 4-H club, hold club office, participate in county 4-H fairs and events, and participate in the 4-H awards program.
2. Any boy or girl who is 5-7 years of age on September 1st of the current 4-H year may participate in 4-H as a Cloverbud member. However, they may not receive 4-H premium monies, participate in the livestock auction, or be selected as a state fair delegate.
3. Mentally handicapped individuals may participate fully in the 4-H program regardless of their chronological age.
4. A member may enroll in only one county, and should receive 4-H premium money in that county.

4-H SHOWPOLICIES:
(Condensed version of policies for 4-H'ers in Crawford County. Additional policies found in the Crawford County 4-H Handbook)
1. All 4-H'ers taking projects to be shown at the County 4-H Show must be enrolled in these projects by February 1st of the current year.
2. All projects exhibited at the 4-H show must be made and shown by the exhibitor within the current 4-H year (September 1-August 31). Any project not made by the exhibitor or not made during the current 4-H year will be disqualified.
3. All projects must be of an A rating to qualify for a champion or State Fair competition.
4. Premiums are paid to exhibitors in accordance to the IDOA premium scale.
5. Any exhibitor who wants to protest an entry or decision must do so within two hours of the judging. A written protest must be given to the 4-H show superintendent. The Crawford County 4-H Youth Council will render a decision.
6. The County 4-H Youth Council reserves the final and absolute right to interpret all 4-H Show Rules and Regulations.

PROJECT INFORMATION:
